It has been called to my attention by Agent [REDACTED] Asheville Office of the FBI, that a complaint has been lodged against me by a female unknown to me in Andrews, N.C. to the effect that I have held myself out to her to be an FBI agent on two separate occasions and that on one occasion I deliberately blocked her car so that she could not drive off. Her allegation includes her statement that I "pulled a Badge out of my pocket, etc." This alledged act was in violation of 18 USCA 912, 913.

I have never held myself out as an FBI agent, or any agent of any law enforcement agency local, state or federal, at any time or in any place. I stand ready to submit to a polygraph test of this statement, and will also submit to a voice stress analysis test if that is more suitable to any investigating authority.

I hereby challenge any such accuser of me to volunteer to do the same. Let's get down to the true facts in this matter at once!

Re: My investigation into the  
alleged FBI impersonation

Dear [REDACTED] b7C

On Friday, July 25th, the harrassment charges against me under the direction of [REDACTED] b7C see attached, were dismissed at the direction of the District Solicitor. As you can see from their language, they do not alledge any unlawful offense and could not, of course, be tried unless amended in some way. I have made no final dedision regarding my pending charges against [REDACTED] and have been advised that there is no great hurry. Investigations are continuing.

An interesting conversation has been uncovered. At the time of my arrest just outside the glass doors of the Cherokee County Courtroom, there was no way that the quiet discussion between myself, [REDACTED] could be heard inside the courtroom. No one approached the attorneys at bar during that episode. Yet, one attorney, [REDACTED] leaned over to my attorney and stated that I had been arrested for carrying a concealed weapon. My question: What lead him to make THAT statement? We were all there on a civil case, the partitioning hearing of the F.I. Wiggins estate in which my wife owns a substantial portion.

As it happens, [REDACTED] was there to represent the alledged interests of one [REDACTED]

For years after we moved here, she offered to sell us her interests in the Wiggins estate, which has never been settled since 1943! Finally, in 1976, my wife agreed to purchase her share for \$5,000. A deed was prepared by the firm of McKeever & Edwards [REDACTED] sold her share. Her signature was witnessed and notarized by the then [REDACTED] of the Northwestern Bank of Andrews, [REDACTED] knew [REDACTED] personally, and asked her all the usual questions pertaining to her understanding of the sale of her share. She took her payment and opened a savings account on the same day, taking \$500 in cash. However, she has now told her attorney, [REDACTED] that she never sold her share, never got any money for it, and that any recorded deed must have a forged signature upon it. b7C

Soon after my arrest, my informants have told me that [REDACTED] and others known to be her associates, have started the rumor that "Nord Davis was arrested for pulling a gun on [REDACTED] in the courtroom." This is surprisingly similar to the statement by her attorney before the fact, or rather, during the

b7C

-- page 2

actual arrest and before any facts were known to anyone in the Courtroom. Interesting! The rumor never got going, because no one would believe that I could be that stupid. Now, [REDACTED] has an older sister who is one of those opposing the lawful partition of the land. Of the 181 acres involved, this sister, [REDACTED] has a 1/9th interest. She lives [REDACTED]. It is known that she and [REDACTED] are involved in all sorts of malicious slander of me---and because of the timing of this alledged "FBI impersonation" I would suspect that either of them would have a motive.

There is more. Until the Court appearance, and the cross-examination of me by [REDACTED] attorney, [REDACTED] as to the form of payment to [REDACTED] I had no idea that [REDACTED] was trying to pull a \$5,000 fraud on my wife. In asking around as to a possible motive for her action, it was told to me that she has been living on welfare for a decade and she did not want the welfare to find out about the sale of her share to my wife. Now that I had learned of possible welfare fraud, I had no choice but to provide the welfare office with this information. I have not even bothered to try to find out whether or not such allegations were true, and I really couldn't care less about it. Since all of this has happened within the last 30 days, and no previous "FBI Impersonations" have been suggested, I just have a hunch that this is the source of your Jane Doe charge.

However, even if welfare fraud is involved, it is highly doubtful that anything will be done about it. High county sources have informed me that [REDACTED] are rather close friends---not socially but politically, whatever that is supposed to mean. If, by chance, [REDACTED] is your "Jane Doe" you would do well to do a profile on [REDACTED]. You would be wise to consider her armed and dangerous, and do not go to her home alone.

Usually, a person such as [REDACTED] brags about her informant status. This, I have to admit, has not been done as yet regarding the false "FBI Impersonation" scam. This is being listened for in various places around the County. Sooner or later they all give themselves away---psychologically they can not resist talking. And when they do, I shall let you know.

There is quite a ground swell of dissatisfaction with the present Sheriff and his Deputies --except for [REDACTED] who, my informants state, is still straight. There have been seven unsolved murders in this county since [REDACTED] and one, Charles Odem, had his head busted and was said to have died of "natural causes." According to my sources, this county does not need the kind of law, professionally or in private life, that is represented in the person of [REDACTED]. I expect to be a small part of having some changes made, and therefore, knowing the character of [REDACTED] and his croud, I expect a continued series of acts of harrassment, and I am prepared for them.

Very truly yours,

Re: Alleged Impersonation

Dear [redacted]

Enclosed you will find a notarized statement denying the allegations of one "Jane Doe" that on the 12th or 13th of July 1980, I impersonated an FBI agent in the Andrews Shopping Center. I think that my offer of submission to either a voice stress analysis machine or a polygraph should be sufficient good faith on my part for you to now enter into an indepth investigation as to just who this Jane Doe is and why she is attempting to get me in trouble. I think that I have a right to be cleared with your office and have a letter so stating.

Ever since my fraudulent conviction in California, and my subsequent investigation surrounding that trial, I have attempted to maintain a fairly accurate record of my activities. In this instant case, I have evidence which will show that:

b7C Saturday, July 12, 1980. I went to the Andrews Airport to charter a flight to photograph some property being purchased by a friend. I wanted to fly in the four place plane with pilot [redacted]. I arrived there around 9:30 AM driving straight there from my home. [redacted] was already out on a chartered flight to Knoxville and was due back at 11AM. I waited. During that time, I talked extensively with [redacted] a manager at Lee here in Andrews, and an owner of a fine aircraft. Also, I talked with another Lee employee who had just moved to Andrews from Missouri and was learning to fly. There were several others there the whole time. The plane piloted by [redacted] did not return on schedule, and I waited until about 1:30. At that time I received a call from a [redacted] asking if I could drive a mutual friend, [redacted] to Chattanooga to catch a 4:30 plane to Atlanta and thence on to California. I agreed, and abandoned my flight plans for that day. I picked up the following people, [redacted] and [redacted] and drove at once to Chattanooga. We put him on the plane and went from there to the POLYNEASIAN RESTURANT, a Chinese style resturant across from the American National Bank on Brainard Avenue in Chattanooga and had dinner. The meal was paid for by my American Express Card, and I have this record. We did not return home until after 10:30 PM.

Sunday, July 12, 1980. I returned to the Andrews Airport at about 10:00 AM with [redacted] and another boy so that they could have a plane ride as I took the pictures. [redacted] was there and ready. However the four place aircraft was already rented out, and all he had available was a "two place" 150. So that the boys would not be disappointed and not get a ride, [redacted] took the two small boys up first for about 20 minutes or so. Then, we left the boys on the ground and I flew with [redacted] nearly to Tipton and took a series of pictures of the property at various latitudes. I had forgotten an extra roll of film, so we landed and I got the film and went back up again to film the remainder. I returned directly home after dropping off the other boy, at about 1:30PM for a late lunch. That

b7C

-- page 2

b7C [REDACTED] afternoon, as I recall, I had some guests at my home for several hours, and I believe they were [REDACTED] from New York. At about 5PM we were invited to dinner with neighbors just a mile down the road, [REDACTED] and stayed at their home until after 10:00PM. Witnesses there were some 20 other guests for that meal.

Now, [REDACTED] I do frequently eat at the HAPPY FLOUNDER in the Andrews Shopping Center. However, I almost never eat there alone. I almost never shop in that shopping center as I rarely buy either food, drugs, or other services offered there. If I go there it is for either of two reasons---to see [REDACTED] who operate the health food store, or to eat at the Happy Flounder. However, on the two days stated by "Jane Doe" in her lying testimony, I was not at the Andrews Shopping Center at any time on either of the two above dates! I can document almost every minute of each of those days with witnesses.

Perhaps you ought to go back and refresh her memory?

Oh, was it supposed to be the previous weekend, perhaps? The evidence will show that I was with [REDACTED] from Plymouth, Massachusetts. They stayed for 5 days at the Granny Squirrel Motel near Tipton, if you care to check. [REDACTED] They left on Tuesday, the 8th. [REDACTED] purchased some 225 acres of prime land here in Cherokee County---and paid cash.

Certainly your "Jane Doe" will remember if it was on a weekend that she was allegedly accosted by me posing as an Agent, wouldn't she? I think that I have given you enough to create a reasonable doubt as to the validity of said Jane Doe.

There are many good men yet in The Bureau and even at The Farm in Virginia. I know personally a number of men who have since retired from the various intelligence agencies and some have their way of sort of "keeping me posted." You may gather that this is so from the level of data which I have been able to come up with... Where I get it you may not know, or even how I get it. Surely you have enough common sense to know that I do not just dream these things up on a full-moon night. One of the finest men The Bureau has ever produced is my friend, [REDACTED] though I have not seen him now in several years.

b7C

Most of my intelligence information is used only for background and I never print it. First it would betray the sources and secondly the average American could not assimilate it into his thinking. For instance, you are soon to learn that five of the Iranian Hostages have been killed and the American people have not been told. So, for obvious reasons, I do not keep sensitive data in my home. Likewise, knowing the high risks involved with over-zealous agents of one kind or another, I go out of my way to be extremely careful not to do or say anything which will bring down any kind of "probable cause search" of my office and even with that, I can guarantee you that I am just not interested in any kind of illegal or unlawful activities---even to save what is left of the Republic. Thus the whole thrust of the allegations of Jane Doe are philosophically and tactically foreign to my whole mode of operation here. Everyone in Andrews, even those who do not yet know me, <sup>have</sup> heard of me and I feel like I am in a fish bowl all the time. I represent a patriotic and Christian cause, and even my personal conduct is kept in check as best I can do.

Oh, yes, I do have an underground of my own. Everyone in this kind of work must depend upon certain sources, at least for the initial thread of an investigation. Some I have to pay but in no way are they my employees. They may have reasons for giving me information that is completely different than my reason for wanting it. Enough said.

You know, there can be, sometimes, something detrimental to <sup>one's</sup> ~~the~~ integrity--- in the minds of the general public---just to have an FBI Agent around asking questions all the time. People wonder, and they begin to imagine all sorts of wicked and evil things about that citizen. Early in 1976, the town began to buzz with the rumor that "Nord Davis was a Communist..." and I took it upon myself to find out the cause of this story. On April 1, 1976, I had a few remarks to make about two of the former FBI Agents who used to come here and ask too many questions. See OTC 42 on page one marked in red. Understand, I have nothing personal against either [redacted] who just may have been doing their duty as they saw it, but they did cause me trouble by inference.

However for one reason or another known only to the higher minds of The Bureau, it did not stop. A year later I had enough of it and I released OTC #43, in which I call your attention to pages B and D specifically. After that was circulated around town, at least that part of the buzzing quickly stopped.

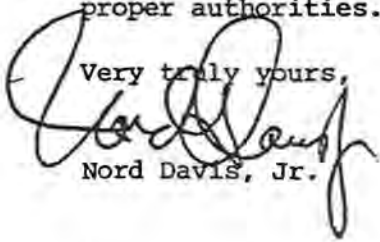

Interestingly, within just the last three weeks, the same tactic marked with a check has begun to surface again. One man asking the question is or goes by the name of [redacted] and this man asked a certain neighbor that very same question. A check with one of the leaders of [redacted] in the area indicates that he is not a native here and must be an outsider. Is he one of yours?

I do not hold with those citizens who have a military solution to every problem. Frankly, I can not see the need, ever, for automatic weapons here in America and I would not want such weapons even if I were lawfully permitted to own them. Of course, you might expect me to say that, but should you decide to put me across a voice stress machine, I'll be happy to answer this question. And, contrary to the COINTELPRO Bureau of Misinformation, I have never had my driveway mined with explosives! What nonsense!

The best weapon I have is my ability with the pen. I don't need anything else to accomplish what needs to be done in routing the socialists and communists out of our government. I have far bigger targets than the petty graft in Cherokee County. I intend to keep a low profile here for it is with this that I can better do my work. A thorough investigation into my past track record will show that this has been my mode of operation. I "surface" only when forced by others to do so.

There is no reason why, in some specific local areas, we can not work together--- or at least, better stated, I will be happy to pass on any solid data I receive. You know, as a "Convicted Felon" I just might be in violation of my probation if I knew of a crime being committed and did not provide such information to the proper authorities.

Very truly yours,

  
Nord Davis, Jr.

"... And wisdom and knowledge shall be  
the stability of thy times..."

Isaiah 33:6

April 1, 1976

Dear friends,

If you will take a moment and read the 24 verses of Isaiah 33, you will notice that the above verse is just about the only verse of hope in that entire chapter. Woe, spoil, treacherous, trouble and tumult are words that the eye quickly sees to set the tone of what Isaiah is telling us. Yet in the midst of all this, he states that wisdom and knowledge shall be the stability of thy times.

**WISDOM AND KNOWLEDGE** I probably receive 40-50 news-letters that provide me with the knowledge of what is happening in America. I receive reports on economics, on law, on political intrigue, on land use, on world government, and on and on. But what good are these reports, and the data that they contain, if I do not have the wisdom to properly use this knowledge? Knowledge apart from wisdom is a very dangerous thing. Right from the beginning, I have tried to instill in you the wisdom you need along with the simple facts and data. Sometimes, as I read your letters, I think I have hopelessly failed. You have taken the facts and not used wisdom in their use or application to your life. At such times I am inclined to think that old Solomon was right when he stated:

"A prudent man concealeth knowledge..."

Proverbs 12:23

By the time you receive this letter, most of you will have received a copy of my booklet on cancer and my own personal bout with it. Do you know why I did not write even an Off-the-cuff... in all that time? Because I did not have the energy to answer the thousand letters that every OTC generates. And if I were to tell you of my problems before the outcome was sure, many of you would be discouraged and others would swamp me with 'get well cards' that I would feel obliged to acknowledge. I just did not have the energy for all of that too. My health had to come first.

During this time, I received a letter from a lady furious with me because she had lost

money through the purchase of gold coins. It was because of me that she bought many thousands of dollars worth of them when gold was \$135. Then when gold dropped below what she had paid for the coins, she got panic stricken and sold out for a loss. What can I write to such a lady? Her knowledge, that is, the price of gold at that time, outweighed her wisdom as to what gold is, what it represents and why I recommended its purchase. She took the facts---that is, that gold must increase in value against the paper inflated dollar---and used them to speculate for a profit. There is nothing wrong with that, but when GOLD AND THE BANKS she saw gold going down in price when logic indicated it should go up, she lost her common sense and sold out. In other words, she exchanged her gold for inflatable paper. Perhaps it is my fault that I did not spend \$1,000 and mail out an emergency OTC urging all of you to hold your gold coins no matter what. But I have already told you the reasons, and perhaps only a few hundred of you have any gold coins anyway. So this lady now has her savings in a bank drawing interest. She told me that. All of her gold is now represented by an ink entry in her savings account book. She does not even have the paper!

Now let's look at this situation again very carefully. According to my information, the Federal Deposit Insurance Corporation has, as of the 1st of February 1976, 359 banks on its "problem list." Some of these were even listed in the WALL STREET JOURNAL to tip off the wealthy as to where not to put their money. The January 26, 1976 WSJ even reported that:

"Chairman Arthur Burns of the Federal Reserve Board said he has called in the FBI to uncover the source of leaks of classified Fed. information."

In other words, Burns wants the FBI\* to do what it can to keep the American people from

\*FBI Agents Wayne Waddell and George Alzenhouser formerly of the Bryson City, N.C. office and Ben Wade of the N.C. State Bureau of Investigation continually appear in this area investigating Nord Davis and inquiring about my activities. Last week, we were visited by one of Rockefeller's men, a CIA agent from the Atlanta, Ga. office. Ho-hum.

Off-the-cuff... is not a general circulation newsletter. It is a personal and private letter, though mechanically reproduced, from the Editor of PARDON ME, but... to his selected friends and supporters of his work. This is the last issue of OTC that will be sent to the regular mailing list of PMB. Those receiving a return envelope with the MIGHTY HUNTER bow are on the list for OTC. All others are not. We regret that we have had to take more than 800 from the MIGHTY HUNTER list (Jer.16:16) as of this issue. Data from these private letters may be reproduced without credits. Inquiries: Box 29, Tipton, North Carolina 28781

THE MIGHTY HUNTERS

learning about the shaky banking conditions across America. If you divide the 359 banks by 50 states, you can see just how serious the problem is. My lady friend has just traded her good solid gold coins for a mess of pottage---a piece of the banking action. Since she is from Eastern North Carolina, and in memory of FBI agents Waddell and Alzenhouser, I am naming the two North Carolina banks nearest her home town that are on the FDIC danger list: Bank of North Carolina and the North Carolina National Bank of Charlotte, the nation's 25th largest. Just six months ago, when I became sick, there were just (only?) 274 such banks. There were 13 bank failures in 1975 and you probably only heard of the Franklin National. So far, in our area this year, the Hamilton National Bank of Chattanooga has folded.

The question is, how many banks can Arthur Burns save once these begin to tumble. Banks can be kept afloat for a while, but all banking now depends upon the confidence of the American people in the value of the paper dollar. Some of America's largest banks, like Rockefeller's Chase Manhattan, are in very deep trouble with loans amounting to 97% of its net value! In July 1975, First National City of New York had loans of 14% more than its total capital! Between Chase and Citi-Bank, they hold 10% of all the money on bank deposits in America. A failure of either of these, and both are on the "V" list, would trigger a national, and very probably an international, banking crisis of the highest order!

Now, I have known about this general trend for years. The economic truths are actually more valid than ever. I wrote about this trend back in 1969. [This material is now out of print.] My advice is still the same: Get out of the stock market and out of bank deposits and put your money into items of intrinsic value specifically gold coins with the idea of holding them for the long term. Eighteen months ago, I suggested a long-time personal friend as the source for these coins if you did not know a reliable dealer in gold coins or wanted to buy them without local dealers knowing your business. That man was Steve Stillman of San Diego. Three months later, he was murdered. I attended his funeral with military honors at the Marine Chapel in San Diego and at that time met his son-in-law who was destined to take over his gold coin business. With the gold prices now so attractive, many of you have called Steve's old number and found that he has gone and now want a new source for your gold. Over the past year or so, I have kept in touch with Steve's son-in-law, Bob Treat, and have had friends buy from him. All were satisfied with their business transactions and I am convinced that he is to be trusted even with large sums of money. He is bonded. By all means check prices everywhere you can and buy from whom ever has the best price. If you use my name when you write, I am sure that Bob will give you special attention.

Now, observe: Gold reached a peak of some \$200.00 per ounce in January 1975 and has declined to a low recently around \$125.00. Tell me, did the intrinsic value of gold change? Has the dollar increased in value such that gold has gone down relative to it? Of course, neither is true. The dollar is losing its purchasing power as evidenced by the price of the cheapest Chevy and the price of hamburger. Why, therefore, do you suppose that gold sells for a lower price? Either the \$200.00 figure was too high or the \$125.00 is too low. But how did either price get

established? Obviously neither had any relationship to the value of the dollar. In other words, these prices are not a result of the free market but the result of someone manipulating the prices. But who? Look to see who is buying and you will know who is forcing the prices down. Yes, you will see that it is the same international bankers, who publicly insist that gold is out of date, that are buying all they can get their hands on! And much of it is going into the hands of the Rothschild Bankers. Why, do you suppose? The world finances are fast arriving at such a state that only gold-backed currencies will be worth the paper they are printed on. Whoever controls the gold, controls the world system.

## COIN DEALER SHOT

# Woman Given Life In Slaying

Mattie Elizabeth Young, 42, was sentenced to life in prison yesterday for the Jan. 6 slaying of Mission Beach coin dealer John H. Stillman, 70.

The former Dallas woman appeared outwardly calm as Superior Court Judge William T. Low imposed the sentence.

Her attorney, Edward Applebaum, asked the court to bear in mind in sentencing that Mrs. Young had been drinking heavily at the time of the slaying and there was no finding by the jury that she wielded the gun that killed Stillman.

### NOTES FINDING

Low commented briefly that the jury did find evidence of premeditation.

Deputy Dist. Atty. Hugh McManus asked for the life sentence.

Mrs. Young was found guilty May 21 of first degree burglary, first degree robbery and grand theft as well as first degree murder.

Stillman, of 3458 Bayside Walk, was found dead in his apartment with a bullet wound in the head.

### COINS MISSING

Missing from his residence were gold coins, reportedly with a face value of \$130,000. Mrs. Young worked as a housekeepersecretary for Stillman last October.

McManus said a codefendant, Kimberly Carol Conner, 28, who came here from Dallas with Mrs.

Young, is awaiting trial on the same charges. She is scheduled to be assigned to a trial department July 28.

Meanwhile, her attorney, Robert May, will seek to have the death penalty stricken from her case. Arguments are set for Monday.

STEVE STILLMAN

Now, it would stand to reason that if the Rothschilds were buying gold the patriots should do the same. It may be that God is giving His Servants one last chance to get enough gold to protect their savings before the bottom drops out of the banking industry and paper money.\*

Now, let's look a little deeper. Suddenly, like mushrooms after the rain, dozens of new financial advisory newsletters have sprung up and are being sent to patriots as "sample copies". I have read most of them. A few are good, but most are treating the symptoms instead of the disease. Most consider only the financial problems as though they were in a vacuum apart from the world political and social problems. They may advise you to buy South African Gold Stocks as though the Communist thrusts in Africa did not even exist.

All of you know that New York City is on the verge of economic collapse from the very expensive socialist programs promoted by the Rockefellers, voted in by the foolish and the rabble, and now being paid for by all the hard workers of the 50 states. What you are not being told, now that all America is paying the bills, is that New York City is not even trying to balance the budget as promised! They are now talking about balancing the budget in ten years! But what most do not realize is that the two Rockefeller banks, Chase and Citibank are stuck with two billion dollars worth of NYC Bonds or about 1/7th of all the debt. They were counting on making a huge interest profit from the taxes of the working middle-class who instead moved out of the city. New York City is left with the immigrant and the indolent who has been promised welfare from the cradle to the grave. There is no way that the NYC debt can ever be repaid, and NYC has technically, if not legally, defaulted. The Rockefeller interests will leave no stone unturned to get the American people to pick up their bad paper.

But most of you may not know that the Commonwealth of Massachusetts is even worse off than NYC! They are soon to issue "Tax Anticipation Notes" redeemable against future taxes on real estate and property

*\*Some of you are going to take this statement in the wrong way. Am I suggesting that you put your trust in gold? No. In these very difficult times ahead, your trust must be in The Lord Jesus Christ for your protection. Do not look to gold as your Saviour in these times. But gold is going to be the commodity that will be used to purchase food when all else fails and it is to be thought of as a tool of protection. It is just like a rifle. Do you trust in your rifle or in your ability to use it? No, you trust that God will help you use your firearms to protect your family from the aliens and strangers. But trusting in God does not induce you to abandon your firearms does it? Did the God-fearing Pilgrims carry a musket to church because they did not trust God for their safety? In this discussion of gold and banks, I want you to keep these things in their proper perspective and act accordingly.*

*Zephaniah 1:15*

values there will plunge as the middle-class begin to leave as they did from NYC.

And the world scene is no better. Every nation that has adopted socialism is in very deep trouble. Italy would have declared bankruptcy had they not been bailed out by the European Economic Community Bankers, and England is as bankrupt as NYC. The Pound Sterling(sic) has dropped below \$2.00. England will never be able to pay her debts and banks all over the world hold her notes. All of this adds up to a world-wide economic crash such as has never been seen in history.

*I am trying to teach you how to prepare for this absolute certainty just as quickly as you can do so. Exactly when or how this collapse will occur, I can not tell you. There is no precedent in history upon which to affix a timetable. It would be far better to be a year too early than two months too late.*

Here is how I look at the situation---how I sort out the facts, opinions, individuals and events. Without apology, I admit that without THE IRON AND the help of Bible prophesy, I THE CLAY... would be unable to make sense out of what is happening in all the sectors of world events at the same time. Remember during the time of the Prophet Daniel that the King had a dream and Daniel was the only fellow who could interpret the confusion of the dream? I call your attention to the Fourth Kingdom [Dan. 2:40-45] in which time slot we now find ourselves. Daniel tells us that this 4th Kingdom was to be as strong as iron at first[v.40] and then begin to divide into two parts so that it is partly strong and partly broken,[v.42] that is, beginning to collapse, with this as the reason:

*"...And whereas thou sawest iron mixed with ming clay, they shall mingle themselves with the seed of men: but they shall not cleave one to another, even as iron is not mixed with clay."*

What is this 4th Kingdom? Well, we know that it has to be in power now because Christ's Kingdom immediately follows it.[v.44] We also know that it is anti-Christ since Christ destroys it. I believe that it is this 4th Kingdom is what some call the Great Conspiracy and others refer to as the Insiders. What it really is, then, is the coalition of those dedicated to the anti-Christian concepts of government, money, and church power. Among these you will find the Zionists and their friends, the Communists and their friends, and the international bankers and their friends. For years, these forces have worked together for the conquest of the world and have been as strong as iron. Now, however, we are beginning to see that their Kingdom is becoming divided as each half, the Iron and the Clay, struggle behind the scenes for power. To the uninitiated, they seem to be still combined together, and indeed they do continue to work together where they have a common goal. But who are the Iron and the Clay? How has the 4th Kingdom split? If you look closely, you will see that it has split with the Iron as the Rockefeller/Communist camp and the Clay as the Rothschild/Zionist side and a war to the death is going on under

the surface. Now do you understand why the CFR-Rockefeller-Communist United Nations recently condemned the Rothschild-Zionist Israel? Now do you understand why the Zionist NEW YORK TIMES began its massive attack on the Rockefeller controlled CIA? If you will remember, the attack on the CIA came just three days after Rockefeller was sworn in as Vice-President. The Rothschild-Zionists are afraid of the Rockefeller private army known as the CIA. Just 24 hours after the NY Times attack on the CIA, Rockefeller's man William Colby forced the Rothschild man James Angleton to resign from the CIA. Soon after that a whole flock of Zionists, such as William Hood and Newton Miller, were pushed out.

If you remember, TIME MAGAZINE, the NEW YORK TIMES, and the WASHINGTON POST are part of the CFR group. So why are they so different in their approach to what is happening? It is because TIME is Rockefeller and the above newspapers are Rothschild-Zionist. If you remember, it was the above papers that were most responsible for the publicity about WATERGATE that deposed the Rockefeller-owned Nixon administration. Rocky won that round by using it to put himself into the V.P. slot ready for the 76 elections. However, that brought about the Rockefeller directed boycott by the Arabs against the Rothschild banking interests. David Rockefeller has the Arab International Bankers in his corner if you recall. This has the Rothschild-Zionists furious and I read in the JEWISH PRESS of March 19, 1976 this front page story by one Eric Fettman:

*NEW YORK-A "Who's Who of American Banking and Industry" consisting of more than 200 domestic corporations and 25 major commercial banks is "waging economic warfare against Israel in collaboration with the Arabs," the Anti-Defamation League of B'nai B'rith charged here last week. Six of this nation's largest financial institutions--Bankers Trust, Chase Manhattan, Chemical Bank, First National City, Morgan Guaranty Trust, and the Bank of America ...."*

The story goes on to list a few of the 200 corporations and those we know to be Rockefeller appear on the list. What can we now gather from all this? There will be a Zionist attack on the Rockefeller banks with the clear intent to destroy them. If this happens, and they can fall even without the Zionist push, what happens to the American economy? Now do you understand Senator Frank Church's attack on the CIA and "Multi-national corporations? Church, now a "Liberal" candidate for President, is a Zionist agent. So is the "moderate" Jackson who has the support of THE JEWISH PRESS [Editorial 4/2/76] in his bid for the Democratic nomination.

And Jimmy Carter? He is being financed by the Rockefellers and the tie-in with Rockefeller is complete and sure. You don't really believe that an obscure peanut farmer from Georgia came this far just on his smile, his shifty eyes, and his double-talk do you? No, it takes money, and money he has. But notice, he is promoted as a conservative and Americans who have had enough of "liberal" government are being tricked into supporting another Rockefeller man.

So, dear friend, as you get information and knowledge, also get wisdom. Man can give you all the facts, but only God can give you the wisdom you need to apply those facts to your own situation and circumstances. Learn to see beyond the bare and often frightening data so that you can understand why certain events are happening. Don't step into the ring with the Rockefellers and the Rothschilds and get battered by both. Let the Iron and the Clay go their way and you go yours. Because of the Iron and the Clay, Christian patriots have a golden opportunity that none of us ever expected. The stock market is as high as it will ever go at the same time that the gold is the lowest that it will ever go relative to the dollar.

And to the rest of us who do not have a lot of money, buy those tools and supplies that may be in short supply if the coming depression should come very suddenly. Ladies, have a good sewing machine with a stock of thread and materials, plenty of canning supplies, etc. Men, now might be the time to buy a reliable pick-up truck, extra garden and carpenter tools, work shoes and gloves, wood stove and chain saw, and a supply of gasoline. And those of you who have moved out of the city, remember why you moved. Learn to put up with the lower pay, the limited selections, and the slower life. Don't be so impatient for Babylon to fall but be thankful that the Lord has given you additional time. Nor should you assume that nothing will happen just because it does not fit some time schedule that you figured out for yourself. Remember, Christ has told us that these things will come to pass in the hour that ye think not! So be especially careful when you begin to think not. Wisdom and knowledge shall be the stability of thy times...

I'm just a country boy passing through life...

"Everywhere else in Texas, they gave us  
yellow roses. In Dallas, they gave us  
red. I wonder why..."

--Jacqueline Kennedy  
Love Field, Nov. 22, 1963

April 1, 1977

Dear friends,

For more than 4 months, my book, DALLAS CONSPIRACY, which was first printed in 1968, has been out of print. So much new interest in the Kennedy Assassination has been generated by the thought of re-opening the investigation, that we have not been able to keep this important book in stock. As I reread my book after nine years, I have very seriously considered redoing it in the light of new evidence not available to me back in 1968. It is not that the solution to the crime has changed, but that further proof has now come out that supports my thesis.

However, I have decided not to change the book, but to let it stand as it is. The student of the Assassination and other more casual readers will just have to remember the time frame of this original work.

In 1968, the thought of a conspiracy to murder the President was absurd to most of our American people. But today, according to national polls, two-thirds of the American people are skeptical of the "lone assassin Oswald" conclusion of the Warren Commission. Watergate has become a household word even if 95% of the American people do not understand what really happened or why. But they do understand that the lone survivor of the WARREN COMMISSION, Gerald Ford, somehow became President. Quite naturally, no one proposed that the investigation be re-opened while HE was President. Just imagine what would happen to the credibility of the Ford Administration, allegedly "recovering from the shame of Watergate" if it became widely known that America's first unelected President was part of yet another criminal conspiracy!

Yes, for reasons known only to himself, it was President Ford who played the key role in hushing up the truth about the Kennedy murder. In his book, PORTRAIT OF AN ASSASSIN, Ford caused fake data to be presented so as to disprove any connections between Oswald and the Rockefeller-controlled CIA. And as it happened, Nelson Rockefeller was Ford's Vice-President. It is, of course, a small world.

The world gets even smaller and more complex when we learn that the prosecutor of WATERGATE, Judge Leon Jaworski, was, in 1963, an aide to Texas Attorney General Carr. Yes, Jaworski, was assigned to do investigative work for the WARREN COMMISSION with the expressed purpose

of disproving any connection between Oswald and any government agency. No doubt, this and other services rendered have qualified him for the Federal Bench.

WHO IS  
THIS  
MAN?

At this point in time I have no way of knowing whether or not the current investigation of political murders, including the Kennedy assassination, will be legitimate or just another cover-up. I suggest that they begin by finding out who the man is standing in the circle above. This was taken from page 9 of my book and can also be seen on page 24 of LIFE MAGAZINE dated November 29, 1963. It was interesting to note that just a week after Rep. Henry Gonzales introduced legislation calling for a re-investigation of the Kennedy Assassination, a sniper's 30.30 caliber bullet slammed through his stationwagon as he was returning to San Antonio, Texas along that lonely desert highway. Someone in Texas does not want the case re-opened and it certainly is not the late Lee Harvey Oswald...

DEPUTY SHERIFF If the new investigation is  
ROGER CRAIG on the level, they will seek  
out former Deputy Sheriff Roger  
Craig who saw Oswald leave the Book Depository and get into a Rambler automobile with a man of Latin descent. His testimony did not jibe with the WARREN REPORT as it would have proved that more than one was involved---thus a conspiracy existed. When Craig stuck to his story, he was fired from his job. There were threats to his life and against his family. When threats did not silence him, he was shot at as he ate in a restaurant and finally his car was blown up and he was almost killed. Craig, an eye-witness, was not permitted to appear before the WARREN COMMISSION but gave his statement to one David W. Belin. Two years ago, Belin's name reappeared as the Ford appointed Executive Director of the Rockefeller Commission whose job it was to "investigate domestic espionage by the CIA." Thus Chief Justice Earl Warren could state in September 1964:

"We have found no evidence of a conspiracy, foreign or domestic..."

...and Rockefeller Commission Director David Belin could state in 1975:

*"There is no evidence that has come to my attention that in any way diminishes the veracity of the conclusion that Lee Harvey Oswald was the assassin and the sole assassin of President Kennedy."*

Readers of this copy of DALLAS CONSPIRACY will know at once that David Belin is a liar.

J. EDGAR HOOVER On page 18 of DALLAS CONSPIRACY, I suggested that students of the Communist conspiracy write J. Edgar Hoover for advice as to where to begin. I also suggested that you read several of his books on the subject. For years Christian patriots have looked to the FBI as the last pro-American agency in the Federal Government. We were wrong. Hoover, himself, was never a Christian and he did not write either of "his books"; the manuscripts were prepared for his signature by an anti-Christ agent in the FBI. Hoover, himself, never contested the hoax known as the WARREN REPORT and this is not the mark of an anti-communist regardless of his position in the government. What was not known to me at the original writing of DALLAS CONSPIRACY was the existence of a subversive agency then as now operating within the FBI itself. Most local agents are unaware of this group and those who do will deny its existence. The code name for this top-secret group is COINTELPRO. Patriots should be advised that any person presenting FBI credentials are to be considered to be part of COINTELPRO until proven otherwise. About a month ago, a man carrying FBI credentials appeared in my home town inquiring of my activities of a number of people. Among the questions asked by this COINTELPRO agent was:

*"Have you ever seen Nord Davis with, or heard him talk about, any heavy weapons such as machine guns?"*

The agent was stupid, of course, on several counts. First, mountain people do not like "government men" and do not trust them. Second, Nord Davis, who has seen the vultures circling him for years, would not be foolish enough to keep such weapons as they are good for a 20 year prison term. Third, if I did keep such weapons, I certainly would not be foolish enough to talk about them or show them to neighbors who would not have any need to know about them. However, I have my own "insiders" and I have determined that this FBI agent's investigation did not originate through the Bryson City, N.C. FBI office but from some other area. Since this FBI agent did not follow the normal procedures, it is safe to conclude that he was from the subversive COINTELPRO unit. As just a country boy passing through life, I cannot imagine why COINTELPRO would waste their time on me...

OSWALD WAS COINTELPRO We now know that Lee Harvey Oswald was a paid agent of the FBI secret and subversive COINTELPRO unit and was given an identification number of S-172. He had in his possession a little black book [Warren Hearings Vol.V, pp. 242,243] which contained the telephone number and license tag number of FBI agent James Hosty. But remember, Oswald played his role of a decoy perfectly even though he was not the major participant in the assassination. Oswald's FBI file was delivered to the COMMISSION but not even the

staff members were permitted to see it, and no independent examination of it was ever made. I CALL FOR AN OPEN INVESTIGATION OF THE OSWALD FILE BY THE NEW COMMISSION.

MARINA OSWALD Lee Harvey Oswald's wife had been an active member of the Russian youth organization Komsomol. She is a liar in all she says and should have been deported after the Assassination. She probably had as much to do with the assassination as did her husband. Instead, she enjoys the best of American life and ignorant Americans have paid her more than \$190,000 for her stories! I would expect that if the current investigation is an honest one, they will call for an under oath testimony from Marina Oswald.

ONE PROOF OF CONSPIRACY... I probably have one of the largest collections of clippings from the news media on the Kennedy Assassination. From the Roanoke Times (Va.) dated June 24, 1976, I read this interesting statement:

Just four days after the President's murder in Dallas on November 22, 1963, the Senate Report disclosed, Deputy Attorney General Nicholas deB. Katzenbach sent a memo to the White House declaring:

*"The public must be satisfied that Oswald was the assassin; that he did not have any confederates who are still at large; and that the evidence was such that he would have been convicted at trial. Speculation about Oswald's motives ought to be cut off, and we should have some basis for rebutting thought that this was a Communist conspiracy or (as the Iron Curtain press is saying) a right-wing conspiracy to blame it on the Communists."*

Anyone who has done a study on the Marxist bias of Katzenbach will understand this statement as one that is right in character.

VOICE LIE DETECTOR The tape recordings of Oswald's interrogation by police and FBI have been studied by a new device not invented at the time of the Kennedy assassination. It is known as Psychological Stress Evaluator and it can detect lies from a subject's voice patterns. Stress does not always mean a lie, but the absence of stress always means that the subject is telling the truth. Oswald was asked:

*"Did you shoot the president?"*

His reply was absent of any stress when he responded:

*"I did not shoot anybody, no sir."*

Please note that I underlined the word anybody. Oswald indicates that not only did he not shoot Kennedy, but that he did not shoot Officer J. D. Tippit either! Interesting! This is the secondary thesis of my book, that Tippit was a double of the President and was not shot across town as the WARREN COMMISSION would have us believe. This gives even further proof of my thesis that there were two bodies, each with different wounds and wrapped differently as outlined on pages 11 and 12 of my book. To those of you who may never read my book, I am reprinting the pictures of Kennedy and Tippit here.

KENNEDY

TIPPIT

On page 20 of DALLAS CONSPIRACY I refer to the "remarkably high mortality rate among the witnesses and others who apparently could provide information embarrassing to these conspirators." I then mentioned the strange death of Dorothy Kilgallen who had an exclusive interview with Jack Ruby. Her autopsy took eight days. Two days later, Kilgallen's close friend, Mrs. Earl T. Smith, died of an undetermined cause. Another woman, Earlene Roberts, had an interview with Oswald after the assassination died at age 60 from a "heart attack" on 1-9-66.

Rose Cherami, age 40, who worked for Ruby was killed in a hit-and-run accident. Hank Killam, whose wife worked for Ruby, was hounded by Federal authorities, had his throat cut on 3-17-64. Robert Perrin, whose wife also worked for Ruby, died of "voluntarily taking arsenic." Betty MacDonald who worked for Ruby was found hanged in a Dallas jail cell on 2-14-64. Bill Hunter, who interviewed Ruby's lawyer, Tom Howard, was shot to death by police in police station 4-4-64. Howard, himself, died under strange circumstances. Tom Howard's associate in his investigation, Mr. James Koethe, who was present in the above interviews between Howard and Hunter, died of a karate chop to the throat 9-21-64. Delilah White, age 27, who had worked for Ruby and was writing a book, was shot by her husband of just 24 days.

Then there was David Ferrie, a gay friend of Oswald and Ruby, who died of "natural causes" after leaving two suicide notes on 2-22-67. By the strangest coincidence, Ferrie's friend, Eladio Cerefine de Valle, age 43, was killed in Florida with a machete and a pistol on exactly the same day that Ferrie died. And last among Ferrie's friends was Mary Stults Sherman, who was stabbed and burned in her apartment 7-21-64.

Among the police who knew too much was Lt. Paul Dyer, who was the first officer to interview David Ferrie after the assassination. He was the youngest "cancer victim" among the various witnesses. He was only 33 when he died on 2-23-65. [Jack Ruby, they insist, died of cancer at age 55 on 1-3-67] Capt. Frank Martin, age 56, of the Dallas Police made the mistake of hinting in his testimony that there was more to be told. He "died of cancer" on 6-16-66. Gary Underhill, 48, and a former CIA agent who claimed to know who was responsible for the murder of the President was found shot to death. It was suicide, they say.

Another "suicide" was William Waters, 32, who died from an overdose of demerol, according to the police, on 5-20-67. Unfortunately, there was no autopsy, a convenient bureaucratic oversight. Waters had called the FBI just after the assassination to provide some information. He was foolish enough to believe that the FBI was made up of honest, patriotic people. He did not know about COINTELPRO. He was told that he knew too much and to keep his mouth shut. When he would not do so, he was confined to a Memphis jail for 8 months on a "misdemeanor charge."

I have listed only a few of those who have died unusual deaths when it is apparent that they knew too much. On October 16, 1974, a private investigator, William H. Cooper was found shot to death in the bedroom of his Baton Rouge, La. apartment. He had been investigating the Kennedy Assassination actively for ten years. Most of us know HOW it was done, but he was digging into the WHY and was very close to proving that the murder was ordered and directed "by certain individuals in the U.S. intelligence community." The police ruled the death as suicide. Observe: Cooper shot himself in the right temple, transferred the .38 revolver to his left hand, wiped it clean of finger prints, placed it on the bed beside him, lay back and pulled the covers over him---all in the split second before he died. The Coroner's report states that the bullet through his brain killed him instantly. It is fantastic what incredible feats a dying man can accomplish!

CHICAGO [UPI] February 4, 1975. I have a story here which quotes a photographer by the name of Robert Groden as saying "that Lee Harvey Oswald had nothing to do with the assassination." And he goes on to prove that there were "at least six shots fired, not three, as the WARREN COMMISSION concluded. PARDON ME, but... Anyone who will take the trouble to wade through the 26 volume set of the HEARINGS before the WARREN COMMISSION will quickly see that at least 20 shots were fired. My DALLAS CONSPIRACY lists the volume and page of these shots. I do not know much about Mr. Groden, but his best friends are Marxist Dick Gregory and a "Professor of Philosophy" named Schoemann. One can just imagine the philosophy that he teaches. Interestingly, this UPI story states that Groden, Gregory, and Schoemann presented their findings to the ROCKEFELLER COMMISSION investigating the CIA. We doubt that even David Belin could manage to keep a straight face.

SOMEWHAT OF A CONCLUSION... These have not been the best of times for those of us who suffer a paranoia derived from an acceptance of the Kennedy Assassination Conspiracy Thesis. Recently, there have been too many revelations which have done nothing to alleviate our unfortunate condition. Do you see all these events as just random coincidence?

In their mad scheme to overthrow all orderly and established free governments and make the earth one vast concentration camp with their own Czar in charge of it, the Communists and

their friends continue to resort to murder and terrorism where necessary. The Kennedy murder is not an isolated event, but just another in a long string of such events. Just as the murder of Czar Nicholas II at Ekaterinburg on July 16, 1918 set off a blood bath in Russia, the murder of John F. Kennedy triggered an orgy of anarchy, terrorism, murder and lawlessness in the United States. Committing our sons to war without a Declaration, selling vital materials to our enemies, bankrupting our people through inflation and debt are in context with the Kennedy Assassination era.

So those of us with this curious form of paranoia continue to be perplexed by the ever expanding circle of unanswered questions that evolve from a "single act of a lone assassin who went crazy with a mail order gun and shot a beloved President." How can one figure out Theodore White's statement in THE MAKING OF THE PRESIDENT 1964---in the light of the WARREN COMMISSION simplistic lone assassin conclusion---when he says, and I paraphrase:

*"Johnson was first told that Lee Harvey Oswald killed Kennedy, that Oswald acted alone, and that there was no conspiracy, while Johnson was still aboard Air Force One on the way back to Washington from Dallas."*

Please observe: At this time, Oswald had just been captured! He had not been charged with the murder, he consistently denied that he had killed the President, and he had not yet even been given a paraffin test to see if he had even fired a gun that day. [This test later proved that he had not fired any gun that day!] Yet Air Force One had received word that Oswald was the lone assassin! Note also that this word to Air Force One did not come from any Dallas source, but from the Top-Secret SITUATION ROOM in the White House in Washington! How did they know so far in advance---with no evidence or even rumor to support it---exactly what the conclusion of a year of Federal Investigation by the WARREN COMMISSION was going to be? Either I am paranoiac on the lunatic fringe or the National Security advisor McGeorge Bundy was a prophet. And if you reject these two rather simple possibilities, then you are at once forced into the Conspiracy Corner. Now what?

You see, once you accept the Conspiracy Theory, you must accept the whole concept that political changes in our American government are made by an Elite and not by the Electorate. If our leaders can be changed by murder as with Kennedy or by continuous propaganda bombardment as with Watergate/Nixon, are we really still under the law and order of a Constitutional Republic? And if we are not, does it really make any difference to most Americans?

If it makes no difference, then there is no value at all to my DALLAS CONSPIRACY work. As I have stated in the book, the solution to the most widely known crime of the 20th century is of little importance in and of itself. There can be no value to proving that a certain man in black pulled the trigger instead of Lee Harvey Oswald, if the reader drops the subject at that point. But if instead the reader sees that he has been deceived; if he discovers that he really knew very little about the most

significant crime in our time because of deliberate fabrications from the very highest levels of our government, just maybe he will find this book the catalyst toward doing even further study.

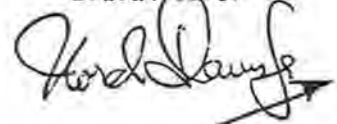

Meanwhile, the FBI's COINTELPRO agents continue to harass Christian patriots in their home towns, trying to discredit them among their neighbors and friends. Congressional investigators have found that COINTELPRO agents work in complete disregard to the civil rights and Constitutional guarantees of the citizenry. Frequently they team up with the IRS agents and shamelessly harass persons operating completely within the law. Not too long ago, William Saxby took a look at the activities of COINTELPRO while he was head of the FBI. Apparently, he was astounded to learn that men who were entrusted to enforce the law were spending most of their time violating the law! He publicly deplored such activity and stated that he would clean up this mess. Instead, a few days later, Saxby was no longer head of the FBI, banished to India as our Ambassador. Ford replaced him with man with solid Communist connections.

COINTELPRO still maintains paid trouble-makers such as Oswald and sends them to settle where ever out-spoken patriots live. These men and women often take very menial jobs so that they can discredit the patriot among the working people. In New England, there were two who caused me no end of trouble. One of them was the then UNIT LEADER of the NAZI PARTY. [National Socialist White Peoples Party] I would be very careful of any so-called patriot who promotes the National Socialists or glorifies Hitler for whatever reason.

The second tactic of a COINTELPRO man is to pretend to be a fine Christian patriot and so work himself into a sensitive position with these patriots or their organizations. His main tactic will always be the same and there are no exceptions: He will make every effort to divide the patriots and get them fighting among themselves. You should learn to watch for this and separate yourself from such people. You will also notice that these agents have absolutely no constructive accomplishments to their credit. It is through these people that everything you do or say is funnelled back to COINTELPRO headquarters. How can you be sure? You never can be, but you might drop a false story in such a way as it gets to them and then see how long it takes for a COINTELPRO man to show up in town. Then you know... Yes, there are two such persons, at least, now living in our area and we are not worried in the least.

*"No weapon that is formed against thee shall prosper; and every tongue that shall rise against thee in judgment thou shalt condemn. This is the heritage of the servants of the Lord, and their righteousness is of me, saith the Lord."*

THE COURT OF HUMAN NATURE

Plaintiff,

vs

UGHT-TO

Defendant.

INDICTMENT

MOTION TO DISMISS FOR CAUSE WITH  
POINTS AND AUTHORITIES

TO: THE PLAINTIFF, AND TO THE CLERK OF THE COURT OF HUMAN NATURE:

COMES NOW, UGHT-TO, Defendant in the above entitled cause and respectfully

Moves the Court of Human Nature to dismiss the above action.....

Date: July 4, 1978 at Indio, California

Dear friends,

REALITY, that tough and relentless prosecutor is forever indicting, and eventually convicting the hapless UGHT-TO in the Court of Human Nature. The record shows that UGHT-TO is a repeat offender, adamantly holding to the invalid concept that what ought-to is true and lawful, when in reality, it all to often isn't.

The trouble with UGHT-TO is that he never seems to learn. You know UGHT-TO as well as I do. You have heard him whine and complain that REALITY is picking on him all the time, and continues to be surprised with every guilty verdict. UGHT-TO, just because he and his friends are in the majority, keeps right on with his foolish ways. REALITY, though he represents a clear minority among us is justifiably smug---he has all the power on his side and wins every time. UGHT-TO never reforms and goes through life frustrated and seeming out of touch with the ever present REALITY.

The UGHT-TO's are everywhere: There ought to be a law... You ought-to know better. Free enterprise ought-to win over socialism and communism. There ought-to be a gold standard. Given enough preaching, everyone ought-to repent. There never seems to be an end to the foolishness of UGHT-TO in his constant conspiracy against REALITY.

What is so curious about the whole affair is that after REALITY collects enough evidence to get an INDICTMENT, he is able to wring a conviction from a jury made up of largely UGHT-TO's. American Law is just such an Alice-in-Wonderland experience. In our instant case here in Indio, we have a Jury made up entirely of completely lay people in the fields of science and medicine who are being called upon to listen to what must appear to them to be highly qualified experts on both sides, and then decide, with absolutely no background or experience, just who is right. If they decide wrong, three Defendants may very well go to prison, for, it is alleged, unlawfully trying to help a dying leukemia patient.

And all this tremendous expense on both sides is over a dietary treatment given, they say, to a little boy already certified as terminal by his medical doctor, and over the fact that, allegedly, the parents were charged a \$50 fee for three days of care.

As one of the Defendants, I have no idea what happened as the charges against me for participating in a conspiracy to practice medicine without a license are totally without foundation, as the evidence will show. What is particularly unusual about this case is the fact that, for once, REALITY and OUGHT-TO are joint Defendants being prosecuted by the State of California. As so many of you know, it has been my position, in reality, that the REAMS PROGRAM should be operated in association with a Medical Doctor or other licensed professional because of the often severe reaction to the anionic lemon drink, especially those with high or low sugar problems. The only capitalized paragraph in my book, THE CURSE... clearly states my position. It is interesting, also, that none of the operators of Murrieta Hot Springs, none of the professionals who were there who would know our position as to the Medical Practice Act, have been called to testify. Instead, it is allowed to be insinuated by the Prosecution and stated by the Press, that the Defendants were actually the operators of the Resort. The same deliberately false impression has also been generated and promoted by the Prosecutors in a similar case in Virginia. The deception knows no bounds. As with Hitler, the bigger the lie, the more readily the public will believe it.

Indio was selected by the Prosecution as the location for trial and no MOTION to change this location would be entertained by the Court. Remember, the Court and the Prosecutor are on the same payroll. All of my MOTIONS to sever myself from the others; to dismiss for cause; and to dismiss on rights secured under the 1st, 4th, and 14th Amendments of the US Constitution, were quickly denied. Once denied, this gave me the right to do the unexpected. Before the trial actually started, I filed a PETITION FOR REMOVAL OF CRIMINAL ACTION (28 USC 1446e) with the U.S. District Court in Los Angeles. This Petition removes, at once, any jurisdiction that the State Superior Court had over me and places me under the protection of the U.S. Magistrate concerning the protection of my rights of free press and freedom to preach, etc. For a Propria Persona Defendant, this is the last thing that the State Court expected. They pretended to look the other way, as people do when they cross the street with a car bearing down upon them, and pretend that it didn't happen. The Judge, who I feel is an excellent person and fair man, still felt that he had jurisdiction and compelled me to stand trial. But, the US District Court admits that they do indeed have jurisdiction, and that my only minor problem is that I had not filed a Petition for an Order to Stay Proceedings. These are being filed FORTHWITH. It is impossible for two courts to have jurisdiction at the same time, and yet the State Court is proceeding anyway, and without acknowledging their jurisdiction, I am permitting them to go through the motions to a trial with me as Defendant, Pro se. What they are doing now is void.

"Proceedings in State Court after filing and service of removal petition are absolutely void, not voidable, and such proceedings are not validated if the case is subsequently remanded to State Court, even though the petition is without merit." South Carolina v Moore 447 F2nd 1067" 28USC 1446

It is interesting that only my Motions to Dismiss were of such a nature as to qualify for Removal to Federal District Court, so only Defendant Davis is removed, and the trial of Dr. Carey Reams and his daughter is valid and in full force and effect.

"Removal by one defendant did not terminate jurisdiction of State Court as to the other defendants." Mosher v Phoenix, 39 Ariz 470, 7 P2nd 622

So, while I am not lawfully a Defendant in State Court, I do have an interest in what happens to my friends, the other Defendants. And it seems that it is very often my cross-examination of the Prosecution's witnesses that is reducing their credibility. But, those questions do not just pop into my head; they require lots of study and thought. The Prosecutor may learn to leave preachers alone...

The whole nature of a trial changes from minute to minute, and as I write, the State is still putting on its witnesses. The first one was the child's Medical Doctor who gave a complete run-down on the leukemia from the day it was diagnosed until it died some ten months later. Except for the fact that the child did indeed have leukemia and that his case was almost hopeless from the day of diagnosis, his testimony is of little value in the instant case. In cross-examination, I asked the Doctor what his chances were on the day of diagnosis and he testified as an expert that the baby's chances were about 5% of living a year. And then I asked his chances in November, 1976 after the first relapse and the answer was no more than 1%. By Spring of 1977, there was no chance. So, the testimony was that there was no chance on the day in May when the parents brought the boy to Dr. Carey Reams, yet the newspaper continues to write that the boy died "soon after he was given a diet consisting only of lemon juice and distilled water." Actually, it was more than a month later, according to testimony. The Medical Doctor who testified was Gary Hartman from San Diego. But, what the papers refuse to print is the testified fact that Dr. Hartman gave the 21# baby a 100mg dose of CYTOXAN on June 2, 1977. That is TWICE the maximum dose allowed, according to the Physicians' Desk Reference, and four times the average dose of CYTOXAN to be given a baby of this weight. There is no antidote according to the PDR, for this dangerous, toxic drug. It is true, according to the Doctor's testimony that the boy died soon after at home. Two friends of mine in the Medical Profession expressed astonishment at the use of this "megadose" of CYTOXAN and I would like more opinions from qualified persons.

NOT

JUST BECAUSE YOU ARE NOT PARANOID DOES MEAN THAT THEY ARE NOT OUT TO GET YOU! As the trial proceeds, there is a long string of witnesses who establish beyond the shadow of a doubt that the Riggs Family brought their son to see me---with an appointment mind you---on May 18, 1977. One said that I was even an hour and a half late in greeting them in the lobby of the Murrieta Hot Springs Hotel. Three witnesses swore under penalty of perjury that they heard me state that Dr. Carey Reams could definitely CURE the boy of leukemia, etc., etc. Each told almost exactly the same story, but none could remember with any kind of similar certainty what else happened in the same week. The Prosecutor was allowed to lead the witnesses, asking if they heard me use the word "CURE" as though it was somehow copyrighted by the Medical and Drug Establishment. This kind of testimony is now in the overkill stage. The mother of the child somehow remembered some alleged exact words of mine, but couldn't remember many of the more significant happenings. As I looked at this mother I suddenly realized that I had never seen her before. I have talked to hundreds of people about the REAMS PROGRAM, but this woman was a new face to me. I began to wonder just what was the meaning of this, and still am wondering. More research needed into this matter.

JULY 6, 1978: THE PROSECUTION RESTS In all, the Prosecution put on a total of 4 witnesses who testified under oath that they were positive that they had seen me on May 18th with the Riggs family. Two of these were employees at the Murrieta Hotel Desk, and this is how they could be sure that they were right on the dates. Both testified that I checked in and out with them on a regular basis all during that time. As chance would have it, both were relatives of the Riggs family. I asked Mrs. Riggs a total of 172 questions, and one of the desk clerks more than 180 questions. Again and again, I came back to the date, the 18th, a Wednesday, and every time they were absolutely certain it was the 18th and could not have been the 15th or the 22nd, etc. And all were certain that I had not seen this family at any other time, either before or since. But nowhere in the Prosecution's side, did they present one shred of physical evidence to any crime! They could produce no record of Riggs registration at the hotel; no copy of any test, diet sheet, receipt for any payment, nothing---except personal recollection. The whole case is made upon personal recollection, except for the ordinary medical records of the Riggs boy provided by his medical doctor. And about their personal recollection of any other date in or around the 18th---almost nothing, except what involved the Riggs child. Of those things, they were certain.

The last witness was Way Riggs, the little boy's father. He couldn't remember a lot of things because "he had been trying to put the death of his son out of his mind." But there was one thing of which he was certain: He did not authorize the megadose of the dangerous CYTOXAN that was given on June 2nd by Dr. Gary Hartman, and that he did not know of any CHEMOTHERAPY given after May 18th, and this point was deliberately over-looked by the PRESS-ENTERPRISE story the next day.

NORD DAVIS NOT IN CALIFORNIA AT ALL ON THE DATE TESTIFIED

Shown here is a check that was signed by me on May 18th in Murphy, North Carolina for the purchase of carpeting. I intend to provide records of Plane tickets, purchases, and other activities that will show that I left California on May 9th and did not return to Murrieta until May 25th, after the boy had been put into the hospital subsequent to leaving Murrieta on the 20th if one is to believe ANY of the testimony. I will introduce into evidence twelve checks signed by me from May 11th through May 22, showing that I was not in California on any date on or about May 18th. I will bring a Bank Manager all the way from North Carolina at a cost of \$500. who will testify that I was in his bank at least twice that week in regard to a bank loan that I finally signed on May 20th with his bank. According to the Riggs Family testimony, as well as the testimony of the Desk Clerks related to them, there is no way that I could have ever talked with this family, and this is why I did not recognize them on the stand. It is chilling, even in this 115 degree weather, to think of what might have happened to me had I not been able to prove that I was never there at all. I might have been convicted on purely "personal recollection" alone, and that recollection carefully drilled into the witnesses by someone...

The father admitted that he called his medical doctor once or twice WHILE HIS SON WAS AT MURRIETA to keep him informed. The question is: Who put these four related witnesses up to this extensive perjury? Who told them that May 18th was the day to use as an arrival date? Who got them to appear before the Grand Jury and claim all the falsehoods stated there? If perjury charges are not placed against these four, we will know the answer, won't we?

But, because of the perjury of these four witnesses, an indictment was issued, an arrest warrant posted, bail set at \$100,000, and this defendant was jailed for 14 days. Their perjury has cost me more than \$15,000 and just about six months of my life. When I go for civil damages, it will not be IN PROPRIA PERSONA. The State has rested, they say. We do not have a defence, but a counter-attack and we plan to give the State no rest at all. Psalm 144:1 and Isaiah 54:17

FROM : SA [REDACTED] b7C

SUBJECT: CHANGED (INTRAOFFICE)  
NORD W. DAVIS, JR. aka.  
Nord Davis  
IMPERSONATION - FBI AGENT

(OO: CHARLOTTE)

Title marked changed to add full name of subject. Title previously carried as "NORD DAVIS, IMPERSONATION - FBI AGENT."

Re Charlotte FD-71 dated 7/14/80.

On 7/17/80, an attempt was made to interview DAVIS at the Cherokee County, N. C., Courthouse, Murphy, N. C. SA [REDACTED] was accompanied by [REDACTED] Cherokee County Sheriff's Office, and DAVIS was pointed out to SA [REDACTED] by [REDACTED] in the corridor of the Cherokee County Courthouse. DAVIS was approached by SA [REDACTED] who identified himself as an Agent of the Federal Bureau of Investigation, and SA [REDACTED] requested an interview of DAVIS. DAVIS was advised that a telephonic complaint had been received on 7/14/80, alleging that DAVIS identified himself as an Agent of the Federal Bureau of Investigation and subsequently blocked a vehicle in an Andrews, N. C., shopping center. DAVIS was advised that this individual desired to move her vehicle when she was told by him that he was an Agent of the FBI and that he did not have to move until he decided to move.

DAVIS advised that he would rather not be interviewed at the courthouse and requested SA [REDACTED] to come by his residence during the afternoon of 7/17/80. Subsequently, several telephone calls were made to his telephone number; however, no answer was received and efforts to further interview DAVIS on 7/17/80 were terminated.

On 7/21/80, DAVIS was telephonically contacted and an attempt was made to schedule an interview with DAVIS concerning instant impersonation matter. DAVIS advised SA [REDACTED] that he did not impersonate an FBI Agent and would submit a notarized statement to that fact. A letter was subsequently received at the Asheville, N. C., Resident Agency, from DAVIS with a notarized statement advising that he denied being involved in any impersonation incident. b7C

During the telephonic contact with DAVIS, he was informed that it was a violation of the Federal law to impersonate any Federal officer and that if he has done so, he should cease and desist that activity. b7C

On 7/17/80, [REDACTED] furnished a Xerox copy of a biographical sketch of NORD W. DAVIS, JR., and a Xerox copy of a circular that DAVIS has been distributing in the Cherokee County area concerning a "Reward for Information." These copies are attached hereto.

No outstanding investigation remains concerning this matter; therefore, it should be closed.

## A Biographical Sketch of NORD W. DAVIS, JR.

Nord Davis spent eleven years with the International Business Machines Corporation, resigning in 1966 because of IBM's policy of trading with Communist Bloc nations.

Prior to his employment with IBM, he served with the United States Navy in the Korean War.

Mr. Davis is the author and publisher of a Christian Patriotic newsletter entitled *Pardon Me, but...* One of the most popular issues of his newsletter, expanded into book form, is the *Dallas Conspiracy*. This book, with photographs, shows the true happenings and sequence of events during the assassination of President John F. Kennedy.

Mr. Davis has received the "Liberty Award" from the Congress of Freedom on five separate occasions for his patriotic journalism.

In 1970 Nord Davis was nominated for the United States Senate by the American Independent Party in Massachusetts against Ted Kennedy. Even knowing he had no chance to win against the Kennedy machine, Mr. Davis ran for one reason: He believed that a man, especially a Christian Patriot, must fight for what he believes. He felt he could not allow the Fabian Socialist, Ted Kennedy, to obtain that office without any opposition from a Christian Patriot. Massachusetts, deceived by the controlled press, made its choice.

Nord Davis moved to North Carolina in 1973, where he continues to write his newsletters and books from his home nestled in the foothills of the Great Smoky Mountains.

In 1975, during one of his speaking engagements, Mr. Davis was introduced to Dr. Carey Reams, a biophysicist. He later studied under this man, learning the art of natural healing and the Biological Theory of Ionization. Mr. Davis then wrote a

book entitled *The Curse Causeless Shall Not Come*. Shortly after this book was published and distributed Nord Davis was indicted, tried, and convicted by the State of California for "conspiracy to practice medicine without a license" — a felony.

Now, as a "convicted felon," Mr. Davis has lost his rights as an American citizen. He cannot vote or hold public office. He cannot own or possess any firearms, nor be issued a passport. In essence, Nord Davis has less rights than the Mexican who sneaks across the border into the United States, or the foreign "student" who is in America for the alleged purpose of attending one of our colleges. He even has less rights than the Communist agents who are in this country with "diplomatic immunity." All of this because he dared to challenge the powerful combination of the pharmaceutical drug industry and the AMA (American Medical Association). The weight of our so-called system of justice was brought to bear on Mr. Davis because he told people that proper diet can often accomplish more for the prevention and cure of illness and disease than costly drugs.

There are no subscriptions available for Mr. Davis' newsletters. He meets all of his research and publishing expenses through gifts and donations from some of the Patriots on his mailing list. Anyone wishing to be placed on Mr. Davis' mailing list need only write to *Pardon Me, but...* Box 29, Topton, North Carolina 28781.

IBM defends their policy of trading with the Reds by saying that the U.S. State Department has given them specific approval. Now let's examine that for a moment. When the State Department gave IBM this "specific approval," IBM was not concerned that this same State Department, made up of almost all the same people, had blissfully ignored the pleas for help from Hungarian Freedom Fighters during the Hungarian Revolution a few years before. Instead, during the heat of that struggle for freedom, they sent a telegram to Communist Tito of Yugoslavia which said, "The Government of the United States does not look with favor upon governments unfriendly to the Soviet Union on the borders of the Soviet Union."

He drove around the back of the building to an area that was completely deserted and then parked. I could see that he was watching my car in his mirror as I drove my Lincoln up behind him and stopped. When Nord did not get out of his vehicle, I got out and walked up the passenger side of his Bookmobile and stuck my head inside wearing a big grin. Instantly, the grin was gone and the hair stood up on the back of my neck. For the first time in my life, I knew what it feels like to look up the business end of a twelve-gauge shotgun.

## \$500.00 REWARD FOR INFORMATION

Because of numerous complaints, a private investigation concerning alleged corruption within the Cherokee Sheriff's Department is currently in progress throughout the County.

This citizens' group will pay \$500.00 each count for information leading to the arrest and conviction for a felony of anyone working for or with the Sheriff's Department on the County payroll.

This citizens' group will pay \$100.00, each count, for information leading to the arrest and conviction for a misdemeanor of anyone working for or with the Sheriff's Department on the County payroll.

All citizens having first-hand knowledge which may be helpful to this investigation, and who are willing to sign a notarized statement and testify before a Federal Grand Jury, if necessary, are asked to write to PMB, Box 29, Topton, N.C. 28781. Provide no details of any kind in your letter. Provide only a phone number where you can be reached. You will be contacted for an appointment. *"No passion so effectively robs  
the mind of all its powers of  
acting and reasoning as fear."*

Edmund Burke

November 1978

Dear friends,

Probably the most effective weapon of war the Scotch ever invented was the bag-pipe. Its eerie tones ahead of a marching column of battle ready soldiers signaled to the soul of their enemy: Death is coming! Death is coming!

**FEAR NOT!** We are living in such uncertain times. It is my job to warn as effectively as I know how concerning some very serious trouble ahead. Often, when I write a newsletter telling people what is to happen, I receive hundreds of letters back from people who are scared to death.

Though I try to discourage it, people come from all over America to my North Carolina mountain home, seeking me out because of a fear of the future that has gripped their mind and soul. It is as though the Communists and their friends were playing bag-pipes in their ears: Death is coming! I have seen grown men so frightened that their hands shake and they grit their teeth. Often they beg me to take them into our midst and help them find a way to live in the safety of the Great Smokies. Have you any idea how dangerous the Spirit of Fear can be? I have been falsely accused by some Christian pastors of spreading a Spirit of Fear instead of preaching a "positive Gospel." Sometimes I get so nauseated by this clerical cop-out that I am forced to put these men at the top of my prayer-list, ahead of others more needy. I am so opposed to the Spirit of Fear that I cannot accept the fearful in any vital position. God's instructions for raising a Christian army is clear:

*"What man is there that is fearful and faint-hearted? Let him go and return to his house, lest his brethren's heart faint as well as his heart."*

Deuteronomy 20:8

Yet, fear of the unknown, of the future in troubled times, and of a dedicated enemy, is a very natural emotion. It is so natural, yet so demoralizing, that the Lord found it necessary to send an angel or other messenger to some pretty strong people in the Bible. We think of the father of our people, Abram, later called Abraham, as being a man of Iron, and I guess he was. But, on no less than three occasions, God had to appear to him as he did in Genesis 15:1 and remind him:

*"FEAR NOT, Abram, I am thy shield, and thy exceeding great reward."*

## DO NOT FEAR LEADERSHIP RESPONSIBILITIES.

And, then there is the account of the Children of Israel fleeing from Egypt, with all the Egyptian gold, I might point out, and all of the Egyptian army in hot pursuit. There they were, stopped by the Red Sea and the sounds of the Egyptians put the fear of death in them all. When all looked lost, Moses said:

*"FEAR YE NOT!, stand still, and see the salvation of the Lord, which he will show you today: for the Egyptians whom ye have seen today, ye shall see them again no more forever."*

Exodus 14:13

Later, as Israel was to enter a land of milk and honey, we find him again telling his people:

*"...neither fear ye the people of the land, for they are bread for us..."*

Numbers 14:8

"Don't fear," says Moses, "don't let the enemy or the people get you down!"

But, look what happens to our hero of the Red Sea and Promised Land campaigns:

Numbers 21:34---Moses, FEAR NOT the King of Bashan.

Deuteronomy 1:21---Moses, FEAR NOT the Amorites.

Deuteronomy 31:6---Moses, FEAR NOT the Canaanites.

## DO NOT FEAR THE ENEMY OF GOD'S PEOPLE.

Scores of times, God had to tell his chosen leaders to "FEAR NOT!" Then those leaders had to tell the people not to be afraid.

FEAR NOT, PEOPLE -----I Samuel 12:20  
FEAR NOT, ISRAEL -----Isaiah 41:13,14  
FEAR NOT, DANIEL -----Daniel 10:12  
FEAR NOT, ZACKARIAS-----Luke 1:13  
FEAR NOT, MARY -----Luke 1:30  
FEAR NOT, SHEPHERDS-----Luke 2:10  
FEAR NOT, PAUL -----Acts 27:24

Just what is the lesson here? Are we to be fool-hardy in the face of danger? Preachers today sort of remind me of the man who asked the Pilgrim if he carried his musket to Church because he was afraid of the Indians. The Pilgrim assured the man that he had no such fear. Then, the man replied:

*"If you believe that everything is pre-ordained anyway; and when your time has come, it has come, there seems no point in carrying that heavy musket to church."*

The Pilgrim looked sternly at the man and said:  
*"I understand your point perfectly. But, you see, I carry my musket just in case I meet an Indian whose time has come."*

The future of America looks pretty grim to anyone who can see what they are looking at. There will be famine here. There will be riots here. There will be unbelievable shortages of every commodity here. There will be a breakdown of public health services. Fresh water will be high on the desirability list. But I urge you to set your mind so that these things do not bring upon you the Spirit of Fear---now, as we see them coming, or when all this happens right before your eyes. Can you comprehend the fear that will grip some Christians who, even now, truly believe that "It can't happen here?" Their pastors have not warned them. They are not prepared. Their blood will be on the hands of the watchman.

This is not to say that Satan cannot cause you a lot of trouble. You know the trouble that I have had because of false testimony in the Courts. "Fear not!" does not mean that you have liberty to walk down an unlighted street at night or pick up any kind of hitchhiker along the road. Critics can still make your life miserable.

The command, "FEAR NOT!" means that we are to do what is right regardless of what the cost. We are to stand up to the enemy and not bow before him!

Whining preachers keep telling me that I am to do such and so because there is some law requiring this or forbidding that. I am a law-abiding man to the best of my ability. But there are places where I draw the line and am willing to suffer the consequences. If the King told you to bow down and worship the Golden Image most of you SAY you wouldn't do it. But, if it were really the final ultimatum "Bow or Burn" I wonder how many of us have that much faith? Some of us may very well find out.

Nevertheless, it was the Lord's example to keep on encouraging and strengthening His Disciples. While He did tell them general things that would happen in the future, as in Matthew 24, He did not say:

*"Peter, it is my duty to warn you that the enemy will eventually crucify you upside down."*

Christ just gave them promises of a Great New Kingdom and the redemption of His People. Toward that end, they were ready to suffer if such was in the Providence and Will of God.

*"God hath not given us the Spirit of Fear; but of Power, of Love, and of a Sound Mind."*

II Timothy 1:9

Understand: That is the Spirit of Power; the Spirit of Love; and the Spirit of a Sound Mind. Fear and Power, Love and Sound Mind are mutually exclusive; they are opposites; they are not compatible with each other. May the Lord give you Power, Love, and a Sound Mind in this battle to occupy until Christ comes.

## THE KENNEDY ASSASSINATION

It has been just ten years since my pamphlet on the most famous murder in America first hit the streets. At that time, I thought there might not be enough interest left to justify the work and expense of proving just how this murder was done. Since then, that pamphlet has been reprinted many, many times. Who else shows you the assassin as he is shooting right on the street?

There were many important names that I deliberately left out of that book's initial printing, and a year ago, I added a four page insert with more data, including the name of the secret FBI group that was involved: *Cointelpro*. As chance would have it, my legal troubles on trumped-up "conspiracy" charges began at just about the same time... This section of Off-the-cuff... is dedicated to this terrible

group with the full knowledge of what I am doing. The man pictured above is one of those whose name was left out of THE DALLAS CONSPIRACY. Another picture of him appears, unidentified, in the HEARINGS ON THE PRESIDENT'S COMMISSION ON THE ASSASSINATION OF PRESIDENT KENNEDY, known generally by the public as the "Warren Hearings." The location of that picture: EXHIBIT #237. Other researchers call him "Saul." Many of us have had a pretty good idea who "Saul" was for a long time. I am telling you now. Saul was the code name of George S. DeMohrenschildt, a professional killer, a Communist sympathizer who was born in Russia on April 17, 1911. His family was wealthy and highly connected, but ran into "bad graces" with certain of the leaders of Lenin's Red government, and they took their funds and moved to Poland. His father owned 5,000 acres of land near Wilno. George was a sergeant in the Polish Army at one time, but he first surfaced in American pro-communist activities around the time of the planned "Bay of Pigs" fiasco in April, 1961 in the office of CIA operative, the late Herman Edward Kemsey. "If anything should happen to me..." Mr. Kemsey told a friend, "the man you just saw is the hired assassin of President Kennedy."

George S. DeMohrenschildt, "Saul", was hired to kill the president in May, 1963 by a CIA operative using the code name of "Troit". The meeting took place, and the money was paid, in the Hotel Ibolele, Port-au-Prince, Haiti. The fee was a mere \$50,000.00 with half down and the balance when the job was done.

George was no fool. He had his Doctorate in business, excuse me, International Commerce from the University of Liege. He also has a Masters Degree in Petroleum Geology and in Engineering. [Yet, he moved around a lot, and married four times, often into money...]

But, George had a way of going through his money and when they were in Dallas, living in an apartment at 6628 Dickins Ave, money was so tight that his fourth wife, Jeanne, went to work at Sanger-Harris, a large department store, in its millinery department. Well, what can one expect? They had just spent a year traveling all over Central America---including a stop in Haiti. George speaks French and a number

of other languages. Well, it's a long story,\* but, this is the whole nut of it: "Troit" and "Saul" worked out a plan to kill the President, and the events of Kennedy's day in Dallas were altered to fit those plans.

*"There was to be a patsy who would shoot at the President but not kill him. At the same instant Saul would shoot and kill him. The Secret Service would shoot the presumed killer who would be visible from a window in a building across the street from where the real killer would be. The assassin would also shoot at this patsy and kill him and the killing would be credited to the Secret Service men and thus the story would end... The real killer would walk away unnoticed and unharmed and collect the rest of his \$50,000. The patsy, Lee Harvy Oswald..."*

Those of you who have read my pamphlet know that this is exactly as I have written it more than ten years ago! It has never been refuted and it has received the "silent treatment" even though more than 75,000 copies have been sent all over America.

But, this story cannot be covered up forever. The truth is beginning to come out, and the new House Assassinations Committee had been looking for "Saul" high and low. Eighteen months ago, he was living quietly in Palm Beach, Florida. They found him and he was scheduled to testify. But, now, there are "voice stress" machines that indicate instantly when a witness is lying. The story would surely come out. The next thing that I learned was this story which appeared in the Chattanooga, Tenn. paper:

CHATTANOOGA, THURSDAY, MARCH 31, 1977.

## Oswald's Friend Kills Himself Before He Can Be Questioned

PALM BEACH, Fla. (AP) — A former friend of Lee Harvey Oswald apparently killed himself within hours after an investigator for the House Assassinations Committee attempted to interview him, authorities ruled Wednesday.

The Palm Beach County medical examiner said an autopsy of George de Mohrenschildt showed the fatal wound was "conducive to that of a self-inflicted gunshot," sheriff's Lt. Richard Sheets said.

Sheets said his office would consider the autopsy results before deciding next week whether to close the case. But he said "something big would have to jump out of the woodwork" to change the theory that the death on Tuesday was a suicide.

He also said a tape recorder being used to record a television program in an adjacent room picked up the sounds

of de Mohrenschildt firing the gun.

"We have the gunshot on tape," Sheets said, adding that there were no sounds of anyone else in the background. He said that by comparing the tape with television station logs, investigators determined that de Mohrenschildt shot himself at 15 seconds past 2:21 p.m. Tuesday.

De Mohrenschildt, a geologist who taught French at Bishop College in Dallas, had known both Oswald and his wife Marina.

Assassinations committee investigators had been trying to find Dr. Mohrenschildt, 35, and only recently had learned he was in Florida.

So, there we find the strange death or the suicide of another key figure in the Kennedy Assassination. I have no knowledge as to whether it was suicide or the work of the FBI COINTELPRO group. Who gained the most by the death of "Saul?" Death by unregistered shotgun in the middle of the afternoon, indeed!

\*George's first close friends in America were the Bouvier Family of Belpport, New York. They just happen to be the parents of Ms. Jacqueline Kennedy Onassis.

I have about 2,000 copies of The Dallas Conspiracy left and they are not doing anyone any good on my shelves. I will send this historic pamphlet to anyone who sends me a donation of \$2.00 or more asking specifically for this work.

**COINTELPRO'S SECRET FILES** About a year ago, an influential friend tried to interest me in helping the late Senator Hubert Humphrey who was then dying with cancer. Knowing the Marxist background of that Senator, I was not interested, but the friend, on his own, took my book to each of the Senator's aides, whom he knew. Routinely, my name was run through the COINTELPRO secret files, and the aide assured my friend, *that based on my FBI-CIA files, the Senator would not be interested.* This was all right with me. But, was I surprised? I would have been astounded if there were no files on me. Beginning in the 1960's, when the repressive tactics against Christian patriots got into high gear, this COINTELPRO has maintained files on some of the most law-abiding citizens in America. Many of these files contain damaging misinformation. You should be made to understand that much of this data on patriotic citizens was not gathered by any government agency, but was fed to them by the pro-Communist Jewish outfit known as the Anti-Defamation League of B'nai Brith. The ADL-COINTELPRO files are political in nature and are not concerned with any alleged unlawful activities of the citizen. The ADL is not a Jewish religious organization, but rather a powerful Marxist political group that uses religion and race as a cover. Linked with COINTELPRO and the ADL is another group known as THE MOSSAD. This is the group that does the dirty work of the ADL in America and the Marxist Zionists internationally. THE MOSSAD is simply an alien secret organization specializing in murder, espionage, kidnapping and other terrorist activities here and abroad. They make accidents happen to anyone who criticizes the Zionist Movement. They generate pressure in high places so that fraudulent Grand Jury indictments are issued on their opponents. As with the Nord Davis case, they have the power to get simultaneous indictments in several states at once, thus tying up the patriot's time and energy fighting in the Courts. I may die tomorrow, but I was not born yesterday.

In Israel, THE MOSSAD has almost the powers of a super-agency. It is under the direct command of Gen. Zvi Zamir, but it reports directly to just one man: Menachem Beigin (alias Begin), the Prime Minister. This criminal is President Carter's "good friend." More curiously, ignorant preachers tell their flocks that what is now going on in the Bible land is the "fulfillment of prophecy" and one must say nothing about murder and terrorism by the Jews."

Begin has passed laws in Israeli making it illegal to offer "material inducement", that is, witness for Christ, in an effort to convert a Jew. The Christian will be jailed for five

years as an enemy of the State. Did you ever hear of THAT from the Jerusalem Chamber of Commerce and the ministers who schedule their guided tours to support the Jewish economy?

THE MOSSAD, because of the terror it can create, has been effective. They have been able to discourage all sorts of people from helping any anti-Zionist cause. They murder arms dealers to the Arabs from any country. Even in America, they get away with their activities and, privately, federal security officers admit that, when it comes to THE MOSSAD, their hands are tied. Why? Because THE MOSSAD is supported by some of the world's most influential financiers and politicians. According to the reliable Washington weekly, THE SPOTLIGHT, one U.S. Intelligence source is quoted as saying:

"In Washington, THE MOSSAD is protecting its own payroll. It's thorough and aggressive here; even a potential opponent or critic of Zionism is a significant threat to them. But, by the same token, they're careful and craftmanlike. If THE MOSSAD decides it wants you out of the way, you're likely to go some sudden way that is so beautifully engineered, even your family will call it a suicide or an accident. And the police will be happy to echo their conclusion."

**IRS SCHEME: BUILD A CLIMATE OF FEAR** Agents of any totalitarian state have just one thing in common: They maintain their control over their subjects through the use of force and fear. The IRS is no different and they even boast about it to fellow agents in their inter-department memos. Who has not known, personally, of innocent citizens who have been wrongfully abused by the IRS or one of its agents? The IRS has become a master of propaganda in the newspapers, waiting until just before tax return time to release stories of those who are being investigated. Usually, it is a well-known business or professional person and the thought that is intended to be generated is this:

"Oh, my God, if they get Dr. So and So, I might be next!"

Any totalitarian state which can make you believe that one line already owns you as a slave. In the May 15, 1978 issue of a very accurate patriotic newspaper, THE COUNCILOR, [\$6.00 for two years--P.O. Box 3567, Shreveport, La. 71105] they list a number of the illegal and dirty tricks that the IRS brags about in their instruction manuals. Here is a direct quote from the IRS instructions to their agents:

"...A similar situation occurred when a doctor's office was seized. The doctor's patients could not keep their appointments, and, as a result, considerable publicity was generated. Seizures which result in sensationalism tend to remain fixed in the public's mind, and are a great deterrent of delinquency."

It is of no concern to the IRS that the man had never had a trial or any kind of Due Process! He had never been found guilty of any violation, and certainly the charges would be dropped later. Force and fear is all that they understand.

A couple of weeks ago I received a call from a Florida housewife about a continuing IRS investigation of her husband's business return

of a number of years ago. These are fine Christian people who believe that they have done nothing wrong. And the IRS never charges them with anything---just lets them know that they are still "investigating, and need another extension of time." Every year, just as he believes that the IRS must have closed his case, he gets another request for an extension. Ironically, this family is on my mailing list because of their interest in natural health. Until the last few months, they have not been, what we would call, active patriots. He is a leader in a Christian denomination that teaches to not only "render unto Caesar that which is Caesar's" but, if need be, to keep the peace, render some of that which belongs to God. He is afraid that a tangle with the IRS will hinder his testimony for Christ. A fellow like that is a perfect target for the IRS. Not only is he frightened to where he cannot digest his food, but he will pass the word to his congregation: You might be next! Here is one of the most successful businessmen in his town, who already pays far more than his share of income taxes, being forced by fear to become a sub-conscious servant of socialism. May God forbid!

I do not mean to criticize my brother in Christ. Most Christians, however, are taught THE GATES to the effect "that the gates of OF HELL, hell would be attacking the Church but would not prevail against it." [Matt. 16:18] Of course the Church will be attacked, but this is not the proper rendering of this verse. Don't you get the picture here? It is of an army attacking a city. The gates belong to the city as a defense against the army without. Who is attacking whom? Do the "gates" attack the army, or is it the other way around? Christ's teaching here is not one of the Church resisting an attack from the army of Hell, but rather that the "gates" of the city of Hell cannot withstand the attack of a Christian army! Praise God! Patrick Henry gave his immortal speech---"Give me liberty or give me death"---not in the streets or the halls of Congress, but sent his attack against the "gates of Hell" in a Bible-believing Virginia church! Paul Revere did not have the lanterns hung in the belfrey of the Town Hall. No, liberty from tyranny came to America when the Christian Church had the faith and the courage to stand up for what is right, and the Old North Church sent Paul Revere on his way. And the IRS? Well, fearful Israel, seeing the giant Goliath, whimpered, "He is too big to hit!" One little boy, David, didn't quite see it that way, and answered, "No, he is too big to miss!"

"Blessed be the Lord my strength, which teacheth my hands to war, and my fingers to fight..."

Psalm 144:1

Dear readers, no matter what you read or what our enemy does to you---or to me--- I urge you to remember this message: FEAR NOT!

MASHBURN stated however to his knowledge the subject is not a member of any organization and has not tried to form any organizations in Topton, N. C., Andrews, N. C., or Cherokee County, N. C. MASHBURN stated there is no groups such as the John Birch Society or the National Socialist White Peoples Party or any type of Minuteman organizations in Cherokee County to his knowledge and Mr. DAVIS is not advocating any such organizations.

On the same date, [REDACTED] Cherokee County SO, Murphy, N. C., advised that he too is also familiar with Mr. DAVIS and that he shares the same views as COP MASHBURN.

In view of the above information, which tends to indicate that Mr. NORD DAVIS, JR., although he possesses an ultra-conservative viewpoint regarding the Federal Government and its handling of the problems of the people of the U. S., is not a member of any organization which might be considered detrimental to the U. S. as a country.

b7C Re Baltimore letter 6/26/74, showing that the name of the above, with address of [REDACTED] Topton, N.C., appears on a Minutemen list. The exact significance of his name being on this list is not clear.

What does appear significant is that two subjects of recently opened cases, NORD DAVIS (157-9792), and [REDACTED] (157-9836), are both at Topton, and are connected with MM or some similar organization. This appears to be quite a concentration for such a small place, and gives some credence to the info in 157-9836 that a right wing extremist training operation is planned or being carried out in Topton.

As shown on the search slip, [REDACTED] were on a right wing mailing list, at the same address, in 1965. Indices also show that [REDACTED], of the same address, was on the mailing list of National States Rights Party (NSRP) in May, 1970 (157-1620-582, p.107). Also, her name and address appeared (157-7875-1) in August, 1970, on a list in possession of [REDACTED] a writer for racist publications who had some connection with the American Nazi Party.

It is recommended:

1. Case be opened on [REDACTED] to ascertain identity and activities, bearing in mind possible connection with NORD DAVIS and [REDACTED]
2. File 157-7400 on MINUTEMEN organization be reopened, to follow this activity.
3. Any pertinent info. which indicates possible MINUTEMEN activity, of [REDACTED] DAVIS, or [REDACTED] be channeled also to 157-7400.

MINUTEMEN  
CHARACTERIZATION OF SUBVERSIVE ORGANIZATION  
EXTREMIST MATTER

The Minutemen organization was organized in 1960, reportedly to resist the spread of communism in the United States by use of guerrilla tactics. Robert B. DePugh, national coordinator of the Minutemen, was sentenced in October, 1970, for violations of the Federal Firearms Act. At the time of his arrest DePugh was in possession of documents concerned with guerrilla warfare and other paraphernalia, including hand grenades, gun silencers, and a machine gun. DePugh was released on parole during April, 1973, and in June, 1973, indicated he planned to revitalize the Minutemen into a "two-armed organization." Arm number one was to be utilized as a political front organization to sway elections and control local and state political structures. Arm number two was to be an underground guerrilla organization made up of "strike teams." These "strike teams" are to be under direct control of DePugh and their existence is to be unknown to everyone, including Minutemen State Coordinators.

The captioned case was reviewed and in view of recent information which indicates that the subject, along with other individuals, may be in possession of automatic weapons and is alleged to engage in firearms training near Andrews, N. C., the following comments and suggestions are being made.

b7D, b7C  
It was noted that the subject moved from Townsend, Mass., where he had the reputation of belonging to the John Birch Society, to Tipton, N. C. Information was received by the Boston Office from [REDACTED] who was a former member of the Special Forces, that the subject attempted to recruit him as a member of a new group which was being established in North Carolina. At that time [REDACTED] offered his services to develop further information concerning the subject's activities. At the present time the Bureau of Alcohol, Tobacco, and Firearms is conducting investigation to determine if the subject is in possession of various automatic military weapons.

Based upon a review of investigation, the following suggestions are being made to develop further information concerning the subject, his associates and his attempt to set up a new right-wing organization.

1. Attempt to obtain a photograph of DAVIS through employment records, etc., in order that his photo may be displayed to appropriate informants, not only in our division but also in Boston and other logical offices.

b7C  
2. Further cultivate [REDACTED] to develop this individual as an informant concerning DAVIS and his associates, and their activities.

5. Attempt to determine if subject has any financial records which may establish his association with other groups or publications.

7. Boston should also be requested to determine if any other members of the Special Forces, who have been recently discharged, may have been contacted by DAVIS to recruit them. It is noted that [REDACTED] was discharged at Ft. Devins, Mass.

8. Consider the feasibility of requesting a mail cover concerning DAVIS for any other logical associates to determine if they may be in contact with members of the military forces or right-wing groups.

9. The Atlanta Office should be requested to discreetly ascertain if [REDACTED] is attempting to recruit other inmates upon their release to join the DAVIS organization. Also, [REDACTED] mail list should be reviewed to determine if he may subscribe to any right-wing publications and if he is in contact with DAVIS.

[REDACTED] stated that DAVIS had given him a small blue booklet which was entitled "The Sheriff's Posse, Comitatus," but that he read the booklet and returned it to DAVIS, telling DAVIS that he disagreed with the philosophy of the booklet. At this time, [REDACTED] stated that he was familiar with [REDACTED] an associate of

INVESTIGATIVE SUMMARY

NORD DAVIS, JR.  
EXTREMIST MATTER - MINUTEMEN

Investigation to date reveals that NORD DAVIS, JR., still resides in the Snyder's Creek area of Andrews, North Carolina. He continues as a part owner of the Covenant Realty Company of Andrews, North Carolina. The Covenant Realty Company office is now the meeting point for the members of the Bible Covenant Heritage Church of Andrews, North Carolina, of which DAVIS is the lay minister.

Further investigation in Western North Carolina has revealed that DAVIS has invited several families from the Northeastern area of the United States, principally from the New Hampshire area, to travel to Western North Carolina to live. These invitations are based on DAVIS stating to these families that he can insure good jobs, mainly with the Covenant Realty Company, and with housing, and good living conditions away from the crime and expensive areas of the North. Persons contacted have advised that the jobs offered by DAVIS are actually nonexistent or low-paying, and that there is a shortage of good adequate housing, and that DAVIS has completely misled them. Most of these families that have traveled to Western North Carolina have joined the Bible Covenant Heritage Church in Andrews, North Carolina, and DAVIS continues to preach his ultra-conservative views concerning the United States Government.

NORD DAVIS, JR.

---

DAVIS reportedly has been a strong supporter of the Minutemen (See Appendix) and its leaders. DAVIS has frequently expressed his strong dislike of the Federal Government and openly advocates the nonpayment of taxes to the Government. Also, he has been critical of law enforcement in general. He is believed to support an organization called, "The Sheriff's Posse, Comitatus," (See Appendix) which claims the only legal law enforcement official is the Sheriff. DAVIS encourages his followers to accept this same philosophy.

DAVIS is not known to support violence to achieve his goals although he is very critical of the United States Government.

The SPC, also known as the Citizens' Law Enforcement Research Committee (CLERC), is a loose-knit nationwide organization established in Portland, Oregon, in 1973 by Portland resident Henry Lamont (Mike) Beach. The SPC is a non-affiliated off-shoot of the Identity Group (IG), a California based tax rebellion organization. The SPC claims that the Federal Reserve System and the graduated income tax are "ultra vires and not lawful," and that the Federal judiciary has attempted to establish "a dictatorship of the courts over the citizens of the Republic."

The SPC calls for the establishment of a posse in each county to assist the only legitimate law enforcement authority, the county sheriff, in combating the unlawful acts of others, particularly those of Federal and state officials.

Some members and leadership of the SPC have voiced hatred for Jews and Negroes, advocated the assassination of Federal law enforcement agents, and have engaged in acts of provocation and assault against Federal and other law enforcement officials.

Buairtel to all offices 5/21/75 (serial 3) states on page 2 that SPC recommends local charters of that group be filed with the local County Clerk ((or Register of Deeds)), and that the local Sheriff be contacted by the group to make the group available to him.

It is not considered feasible to contact all Sheriffs or local Register of Deeds in all counties. If this group is incorporated in N.C., this info can be obtained from the office of the Secretary of State of N.C. in Raleigh.

b7C The following investigation was conducted by SA [REDACTED] at Murphy, Cherokee County, N. C., on 8/18/75:

[REDACTED] Cherokee County, Murphy, North Carolina, was contacted and advised that he had not been contacted by NORD DAVIS, JR. in reference to the Sheriff's Posse Comitatus or the Citizens' Law Enforcement Research Committee. [REDACTED] advised that he has had very little communication or contact with DAVIS. He further advised that a year or so ago, DAVIS came to him and requested a Deputy Sheriff's deposition at which time [REDACTED] advised him that he could not give him one but instead gave him a card which advised that the bearer of this card was an honorary Deputy Sheriff of Cherokee County, N. C. [REDACTED] stated that he advised DAVIS that this card was not an official document and was actually worthless and that the bearer of this document had no law enforcement powers.

[REDACTED] Murphy, N. C., made available her records on 8/18/75. Review of these records revealed that no charter or incorporation papers for the Sheriff's Posse Comitatus or the Citizens' Law Enforcement Research Committee had been filed in Cherokee County as of 8/18/75.

INVESTIGATIVE SUMMARY

NORD DAVIS, JR.  
EXTREMIST MATTER - MINUTEMEN

Investigation to date reveals that NORD DAVIS, JR., continues to reside in Andrews, North Carolina, in the Snyder's Creek section. DAVIS continues to be part-owner of the Covenant Realty Company of Andrews, North Carolina, and also continues to be the lay minister of the Bible Covenant Heritage Church of Andrews, North Carolina, which meets in the Covenant Realty office.

Continuous investigation in Western North Carolina in and around Andrews, North Carolina, has revealed that DAVIS continues to express his ultra-conservative views concerning United States Government through the Covenant Realty Company and also the Bible Covenant Heritage Church. No information has been developed that DAVIS is involved overtly in any extremist matters in Western North Carolina.

DAVIS reportedly has been a strong supporter of the Minutemen (See Appendix) and its leaders and has openly expressed his strong dislike for the United States Federal Government. His dislikes and viewpoints are expressed through his contact with local businessmen in Western North Carolina, his positions with the Covenant Realty Company and the Bible Covenant Heritage Church, and also through a newsletter which he publishes entitled "Off-the-cuff." DAVIS has been critical of law enforcement in general and is believed to support an organization called "The Sheriff's Posse Comitatus" (See Appendix), which claims the only legal law enforcement official is the Sheriff. Although DAVIS

Dear [REDACTED]

I will make this letter very short. I have no intention of repeatedly calling your office and being promised a return call to no avail.

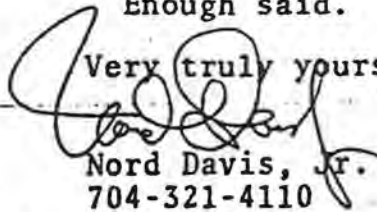

It is necessary that I have satisfactory answers to the questions posed to you five days ago and I want those answers at once.

It is the consensus that the Senator has caved in to the liberals surrounding President Reagan in regard to his Central American Policy. We have reason to believe and suspect that the sensitive data provided to your office has found its way into the subversive hands of the Reagan Central Intelligence Agency operatives in Northern Costa Rica.

I have ten times the circulation in North Carolina as did the late Ogden Brouwer, and I may be able to swing any conservative votes away from the Senator if I still feel that our efforts there are being compromised by his Staff and formal and informal associates.

Enough said.

August 1983, Team Debriefing

Even in war, there is humor. Let me tell you of a real sad story. Can you see the grin on my face? It seems that one of the leading El Salvadoran Communist females, Dr. Anaya Montes was stabbed to death\* reportedly by one of their own Party members, and the Number One Commandante, Sr. Marcial, was so depressed and dismayed about the murder of Anaya that he committed suicide. As the saying goes, "That's how it is in the tropics!"

Here is the story. One of the leading anti-communist newsletters printed in the United States, in their August issue, reported the death of Miss Anaya with the caption to the effect that the Communists kill each other over differences in political doctrine. We are not doubting that this happens, for Trotsky was murdered by one of his own fellow Communists. Even conservatives have been known to fight among themselves almost to the point of blood. Politics and Theology have been known to do strange things to the thinking patterns of the most idealistic among them. And, so, when the newspapers reported with a straight face that the Number Two Person of the largest Communist Faction in El Salvador was murdered by a low level party member, our friends in this newsletter bought the propaganda and printed it as the truth. We are not experts in Latin America, preferring to leave the "expert opinions" to those who have spent two weeks or less in the area. There is just no substitute for hard intelligence from those who live in the area and speak the Spanish language. Comrade Anaya was Salvadoran, but she met her final reward in Managua, Nicaragua. The Nicaraguan GUARDIAN reported the fact of her death as follows:

*"The murderers dressed themselves in hoods and wore rubber gloves to commit the crime, according to Nicaraguan police. For weapons, they used knives and ice picks, stabbing Anaya Montes more than 80 times and then cutting her throat."*

*GUARDIAN, May 4, 1983 - page 12*

Now, if the murderers wore hoods, and could not be fingerprinted, how do the police know just who they were? And, if they can not determine who they were, how can they suppose a motive? The murder took place on the night of April 6th, but the Nicaraguan people did not learn of it until a month later. There was a patsy who was arrested and one might suppose has been executed. The evidence will show that he did deny any involvement, though it is known that he did differ with the policies of her clique within the party. The unfortunate fellow was Rogelio Bazzaglia, a young man of about 28. Alas, poor Rogelio, we knew him well. Just six days after the body of Anaya was found, and three days after her emotional funeral, her leader, Commandante Marcial, is reported to have committed suicide. The story of the untimely death of Commandante Marcial was carried in the Nicaraguan Sandanista newspaper, named THE BARRICADA, dated April 25th.

Our intelligence indicates that Commandante Marcial, whose real name was Salvador Cayetano Carpio, was born in El Salvador in 1919. He had

# TEAM

served as the Secretary General of the Salvadoran Communist Party in the 1960's and his achievements for communist causes may well have been on a par with Fidel Castro and Che Guevara. Murder and death of the innocent as well as the not-so-innocent, was nothing new to this hard-core Communist. Now, are we to believe that he was so depressed at the death of his comrade-in-arms that he just put his gun to his head and pulled the trigger? Knowing the emotional disposition of the Latin, you might have cause to believe this bit of propaganda. And, it does make a wonderful story for the less intellectual among the communist ranks.

Now, let's discuss the late Comrade Anaya. Her Communist name was Commandante Ana Maria Morales. Her real name was Melinda Anaya Montes. Now, it must be remembered that Ana Maria was Salvadoran but was killed in Managua, Nicaragua. Our Northpoint people knew her as a torturer of anti-communist Nicaraguans and others believed to be helping the CONTRAS that were working for Nicaraguan freedom. She devised all sorts of cruel tortures of those she thought might break and betray the patriots. She supervised the execution of at least 400 patriotic Nicaraguans, some of them we knew quite well. Of others, we now know the next of kin as they are recruited into the freedom movement there. There are many who had a just motive to get even with Comrade Ana Maria Morales! The Sandanista newspaper makes this statement:

*"All those who participated in Commander Ana Maria's assassination were captured during the week following the crime." BARRICADA, April 25, page 1.*

Oh, is that so? All that we need to say about this newspaper story has been translated from the Spanish for us: "No way, Jose!" Anyway, we think that the sordid murder could not have been pinned on a more deserving Communist: One Rogelio A. Bazzaglia Recinos, a member of the FPL Central Command. Rumor has it that the authorities found some of the rubber gloves and what appeared to be an improvised hood, in the house of Communist Rogelio. We understand that some of those who did not like him saw to it that he could not account for his time the night of April 6th. Quite truthfully, and we suppose that he tried in every way to make this quite plain to his accusers, Rogelio has no knowledge of the terrible deed, and may have even expressed his own personal anguish at the news of the death of so talented a Communist as Senorita Ana Maria. Comrade Rogelio has dropped out of sight since his arrest, and if he has indeed been executed, it could not have happened to a better man. It could not have worked out better had we planned it ourselves. The authorities have never figured out why Comrade Rogelio, and presumably some unnamed associates, all of whom were armed, did not just shoot Ana Maria instead of putting her through the pain of the multiple stabbings.\* The newspaper accounts indicate that there was sufficient evidence to implicate Comrade Rogelio in spite of his highly emotional denials. Professionalism takes many forms...

Now, as to the death of the Number One El Salvadoran Communist Party Leader, the man who has been making all the trouble in El Salvador until April 12, 1983. The Sandanista BARACADA of April 25th stated:

*"Depressed and dismayed by the irrefutable evidence of the enemy's activity, carried out by a trusted person, which led to the assassination of Anaya Montes, Commandante Salvador Cayetano Carpio tragically took his own life on April 12th."*

How sad! Please send my condolence to Senora Cayetano. None of the newspaper stories available to us indicated just HOW Comrade Marcial, that was his Communist name, actually met his death. There is a very good reason why that data has not been made public. Commandante Marcial, we understand, fancied himself an expert in fine handguns, and he owned several of them of different calibres. I am certain that the evidence will show that Commandante Marcial shot himself in the LEFT temple with a .45 calibre pistol, one calibre, we understand, he did not own. Which leads one to all sorts of speculation, doesn't it? Well, if one is to do the job well, with no chance of survival as a vegetable, would not an expert in handguns seek out a person with a .45 and borrow it for a day or two? Is it true that Sr. Marcial was RIGHT handed? On the other hand, it well may be that Commandante Marcial had just a little help in committing suicide. Oh well, that is how it is in the tropics.

Now, there is a serious problem for the world Communist movement, not to mention the American Central Intelligence Agency, with the unexpected death of the two top El Salvadoran Communist Party leaders. And when both die under unusual circumstances, to say the very least, the matter becomes highly complex. Whoever killed Ana Maria had just a little more than a political difference of opinion. And whoever killed Commandante Marcial---I am sorry, but suicide is simply out of the question --also knew what he was doing. The U.S. Trotskyist newspaper, the MILITANT, dated June 10, 1983 had this to say, in part:

*"...Given the vast resources Washington has mobilized to halt the advance of the revolution in Central America, there can be no doubt that the CIA was involved in one way or another. That is understood by all." (page 5)*

And those of us who know the real role of the CIA and certain other American intelligence and covert action groups operating within Nicaragua and Costa Rica also know that the death of Comrade Ana Maria and the top communist Commandante Marcial would be and are highly counter-productive to the true American intentions throughout Central America. Further, should it have been the CIA which assisted Commandante Marcial to his final reward, they would have been wise enough to have used a weapon of communist manufacture, or at least a widely used 9mm pistol and then left it on the scene. It has been reported to us that the weapon which killed Commandante Marcial was not found on the scene. Is that not so, Comrades?

While the American people do not know which side the government of the United States is on, there is one thing certain: The Nicaraguan people do. They know about the betrayal of their country into the hands of the Sandanista minority by the U.S. Department of State of the Carter Administration and know full well that the same people are still on the job today. They know that they were betrayed by the government of Costa Rica and by the pro-Communist Costa Rican former President, Don Pepe Figueres. They can expect no help from the South. However the deaths of these two Communists Leaders happens to coincide with the increased American military activity in Nicaragua and off the coasts, doesn't it? Whenever there is any kind of change in Communist top leadership there is a risk that there may be a counter-revolution as the Communists try to fill the vacuum. May I suggest that this is what has happened here?

It has been necessary for the American Totalitarian Socialists who now control the American government and our foreign policy to make it very clear to the Nicaraguan patriots, and those who are helping their cause, that there will not be any revolution permitted which will unseat the Communist Sandanista government.

Have you not noticed that the American military operations are always such as to prevent any anti-Communist counter revolutions against the Communists who are in power? Remember when the U.S. Navy Atlantic Fleet was sailing around Cuba to make sure that the anti-Communist Cubans did not invade Cuba and free it? And you recall how the American Navy Pacific Fleet has sailed for years between Formosa, and the China mainland to make sure that the anti-Communist Chinese did not free their brethren under the heel of the Hammer and Sickle?

You remember how the American Department of State gave the American Canal at Panama to the Communist government there, now don't you? Did you approve of that? Then why do you suppose that this same State Department, with its trained CIA agents, are doing any differently in Nicaragua? Is not the man who gave you Vietnam, Cambodia, and Laos, now giving you Nicaragua and El Salvador? We refer, of course, to a man who has been identified as a former Soviet KGB agent, Henry Kissinger!

The sudden deaths of these two top communists has the communist efforts in Central America in confusion and division. There is a struggle for leadership in the positions which have been vacated, and these deaths can only be helpful in buying time for the patriotic cause in those unfortunate countries.

The NORTHPOINT Teams applaud the person or persons unknown who have accomplished so much for the cause of freedom with a knife, \* an ice pick, and a .45 calibre pistol.

You know, sometimes anti-communist writers insinuate that the Communists are robots instead of fallible human beings. We tend to forget that they are people driven by personal emotions which are very often intermingled with Party loyalties to the point that they have a hard time defining the lines. They make mistakes, lots of mistakes. They are not superhuman. They are just more dedicated to their cause than most of us are. They will sacrifice and kill for the advancement of totalitarian socialism. They will give up every luxury, every personal desire, that their cause win. What have you given up for the cause of American liberty---not to mention Nicaraguan liberty---in the past five years? The Communist cause is highly risky, and could not succeed without American help and support. The Communists, and the Americans who support their cause, know that a mere handful of dedicated CONTRAS, can, and is, defeating the Communists in Nicaragua.

Toward the Liberation of Nicaragua from the Communist Sandanistas, THE NORTHPOINT Teams have sent their support for the past 10 months.

\*Reportedly. Commandante Ana Maria Morales was actually shot by two Soviet AK-47's with 30 round clips. There were 60 bullets through her body. The reader is requested to refrain from asking any further questions about this entire matter.

# Reagan to USA: Trust me

'We have no military plans for intervention ...'

By Ann Devroy  
USA TODAY

WASHINGTON — President Reagan insisted Tuesday the USA is not headed for a Vietnam-like war in Central America, saying huge troop and naval exercises there are routine.

Reagan, in a prime-time TV press conference:

- Said plans to dispatch of up to 4,000 troops and two naval task forces to the region for training bears no comparison to the early stages of involvement in Vietnam.

- Compared the exercises to "regular" training in Central America since 1965, and said to stop them now would be "the wrong kind of signal to send if we want peace in that area."

- Criticized the "confusion" and "constant drumbeat" of reports on military moves that Reagan said have created an inaccurate public image of his policies.

- Complained there "is no confidence" in his insistence he wants economic and political solutions in the area.

- Said that most people would agree with his moves in the region once they understood White House goals.

An ABC News poll said Tuesday it found a 6 to 1 margin against sending USA troops to Central America.

The White House conceded the main reason for the press conference was to calm public fears. The administration had expected the naming of a bipartisan study commission on the region would dominate headlines, not the military exercises.

Reagan would not discuss covert aid to rebels fighting the leftist Nicaraguan government, except to say congressional attempts to end the \$80 million program would harm his Central American policy.

House Speaker Tip O'Neill, D-Mass., said Tuesday that Democrats now have enough votes for a cutoff. However, the Senate is expected to block it.

## NORTHPOINT TEAM

ROUTE ONE · BOX · 246 · ANDREWS · N.C. 28901

"Treason doth never prosper: What is the reason? For if it prosper, none dare call it treason!"

Sir John Harrington  
A.D. 1612

**U**nderstand, the government of the United States may not lawfully intervene militarily in Central America. All military actions of the United States are under the direct military command of the Under Secretary for Political and Military Affairs of the United Nations. Mr. Reagan, and all Presidents since the United Nations Charter was ratified, are no longer Commander in Chief of the armed forces. By United Nations agreements, the Under Secretary commanding the Armed Forces of the United States would always be a Soviet General. As some of you may remember, there were no plans to intervene in Korea. Somehow, we did and that intervention still is not resolved. There can not be a peace treaty as there never was, lawfully, a declaration of war. We no longer have the international legal right to declare war, even in our own defense. When General McArthur decided to actually fight to win in Korea, it was the Under Secretary for Political and Military Affairs that forced President Truman to fire the most popular military hero of recent history.

Now there is talk that Central America will become another "Vietnam". What was that? It was another military intervention that our President at the time insisted would not occur. We were just there as "advisors" until, quite by accident we are told, we found ourselves suddenly militarily involved. We were never told that Vietnam was also directed by the same set of Soviet Generals as was Korea, and that any kind of American victory over the communists would not be permitted. Also, nearly unknown is the fact that it was this Editor who raised the funds and set up a private military air strike on Haiphong Harbor to deny to the communists all materials of war. The harbor was mined just ten days after our team gave an ultimatum to the commanding officers to close that harbor or we would do so. That was May 8, 1972.

Now we have another repeat of the same story all over again. We have our military presence off the coasts of Nicaragua, with no plans to intervene there. Again the United Nations is in command of what we are to be doing there. The Sandanistas, a polite name for the Communists who now control Nicaragua, know that the United States is powerless to act against them except in such a way as to further promote Communist conquests in the area. I have a complete report on the situation now being prepared, but the situation changes, or perhaps I should say the perception of some of the events change, and I have held off publishing until I can put out the data timed with the awakening understanding of the American people to the threat which now truly exists.

As many of you know, I spent 18 months in Central America while all of the treachery was being set up for what you are reading in today's news. I know many of the personalities involved personally. I know how we are

being betrayed by our intelligence forces in Latin America, just as we were by the OSS Col. Dean Rusk in China 40 years ago. This traitor later became Secretary of State under President Eisenhower. Just 25 years ago we were betrayed by our intelligence operations in Europe by a certain Army Officer named Henry Kissinger (Alfred Heinz Kissinger). I wrote of the sordid background of Dr. Kissinger years ago, but it bears repeating here now because it is this man who will now be publicly directing the matters in Central America. As I wrote in 1974:

"Kissinger's brilliant military career is tarnished by just one small detail: while he was attached to the U.S. military counter intelligence, Alfred Heinz Kissinger was a member of the Soviet Secret Police. At the end of WWII, the Soviets established a network of intelligence and counter-intelligence activities known as ODBA. It still exists today. In 1954, its head was Col. Kujun. In that year Col. Kujun had a female agent who was murdered and the \$80,000 she was carrying vanished. Summoned to Moscow, Col Kujun, whose code name was "Bogdan", expected to be executed and attempted suicide. He failed but was badly wounded. Among his papers in Europe were the names and code names of the ODBA principal agents. One man with the code name "Baraban" was actually a man named Rosenhard. This man was a member of the U.S. Military Intelligence headquartered in Oberammergau, West Germany, at the same time Kissinger was a civilian instructor there. Under the code name "Buck", and described as an agent of ODBA, was the U.S. Sergeant Heinz Kissinger."

So now we have former(?) Soviet Agent Kissinger now speaking for the President in his so-called Central American policy. I am not impressed in the slightest. What is it going to take to wake up the American people? A Latin invasion across the Rio Grande?

One of the leading Communist Sandanistas who took over Nicaragua was a man named Eden Pastor. He is known in Nicaragua as "Commandante Cero." He is a man of low-grade talent, and he was not included in the Junta which rules Nicaragua. As a scheme to trick Americans, in concert with the Sandanistas, Commandante Cero became "disillusioned" with the Sandanistas and stated that they had betrayed the Revolution. He set himself up as a new Leader, a true Sandanista, and is alleged to be purchasing arms to rout out the Sandanistas and install "democracy." The clue to his actual treachery is in the associates whom he chose to work with. While I was in Costa Rica, Commandante Cero was being sheltered by the former Nazi, former(?) CIA informant, and Ex-President Jose Figueres at his mountain home near Cartago known as "La Lucha sin Fin." (The Struggle without End.) Figueres, in his writings, admits that he was disappointed that the Nazis lost the war, and hoped that he would live long enough to see the Soviet Union conquer America. The Figueres Family is violently anti-American and pro-Zionist. One former wife of President Figueres is the current Costa Rican Ambassador to Israel. She is Jewish. It is her sons, by President Figueres, who are the leading Costa Rican supporters of the Sandanista revolutionaries, and the younger, Mariano, actually fought with the Sandanistas in Nicaragua during the revolution. It was the Figueres Family which provided many of the guns used in the revolution, just as they are now doing, with the full knowledge of the U.S. Embassy to El Salvador. The Figueres mountain fortress is an arsenal of illegal weapons, but the family has enough political power that even the Costa Rican government will not interfere. I can say that our group has interfered with their gun-running on several occasions, which is one of the reasons I felt it necessary to leave the area in mid January. More on all this later, but it is important to know here that the man chosen by the Reagan State Department to support in Nicaragua is none other than Commandante Cero! Commandante Cero is nothing more than a Communist just as Kissinger is, though, for the dazzling of the American eyes, both pretend not to be so.

Personally, I believe that antiCommunist Somosa, the former democratically elected President of Nicaragua was a good man. He understood the American way and could think both as an American and as a Latin. Those who knew him called him "Tacho." However, as with any good man, there are and were those around him that were not as honorable. Down the line, as is often true, there were some terrible "Somosa men." Such men are justifiably hated by the average Nicaraguan though they would still elect "Tacho" if he were alive to run again today. There is some American aid going to what are alleged to be "antiCommunists" but, as chance would have it, most of it is going to those hated former Somosa men. I regret to say, that one of the "bad guys" is the son of Somosa, Anastasio Somosa III, known as "Chuglin." He is widely hated all over Nicaragua, and there is no way that the Nicaraguan people are going to put up with that man as President. So, naturally, the Kissinger Initiative, which has been going on long before it was announced recently by President Reagan, was to supply funds to "Chuglin." He has received more than \$19 million in "contra" aid, and almost all of it has been transferred to Swiss bank accounts. So, betrayed again by U.S. Intelligence forces in Central America, the American people are now supporting the two worst possible people in Nicaragua, Commandante Cero and "Chuglin." Oh, you did not read about that in the news?

I am not all that smart. I can not speak the Spanish language. However, I was able to put together a team, known as THE NORTHPOINT TEAM, that can gather sufficient intelligence to know for certain that American treachery is going on. I am still gathering data from that area, and while U.S. authorities have intercepted some of the mail coming to me---because it is sent in duplicate and the blind address always gets through and the Topton generally does not, I can state that we are pretty well abreast of the happenings on a week to week basis. Your Central Intelligence Agency now has a file on citizen Nord Davis. Which is just fine with me. I have a file on them and turn about is fair play.

There is one major problem for the Kissinger team in preventing an actual antiCommunist victory in Nicaragua. This is the huge number of CONTRAS who intend to live in freedom again and care not for sophisticated international politics. These people are being supplied through private sources within Costa Rica and from the United States. Your editor has been involved in this effort for some time now. Further, there is a problem of the terrorized Nicaraguans fleeing into Costa Rica, swelling the population there, and creating logistic problems for the government. These people keep on talking about how terrible the Sandanistas are, and that Communism is hardly the wave of the future. These must be stopped, as well as the supplying of the anticommunists. All American funds and support is to go to Commandante Cero and Chuglin and no where else. How do they intend to stop it?

Hold your hat and fasten your seat belts! The Zionist controlled Costa Rican government in concert with the Kissinger Initiative have decided to provide a "Israeli Settlement Area" in Costa Rica. This area, which I call the Costa Rican DMZ, will be a strip of land 25 km wide running through the jungle and over the mountains from the Atlantic to the Pacific right along the southern border of Nicaragua! This 25 kilometer strip will be literally owned by the State of Israel, and patrolled by the Israeli Secret Police! This "Berlin Wall" now being purchased for Israel by \$300 million U.S. dollars, is a TOP SECRET project that is not known even by most of your Congressmen. As you can see by study of the maps and topography, that area of Costa Rica is not suitable for human inhabitation. It is dense jungle that can hardly be cleared even to put roads through it. A path cut through this jungle with a machete will be grown closed again within two weeks. Much of it is swamp and marsh lands. The San Juan River continually floods the area. There are poisonous snakes there which are capable of running down small game, including a man. No Jew will ever live anywhere in the area, and even to this date there are no roads through that land. So, there is no justification for any such Israeli Settlement area whatever. Are you getting the picture? Who else has told you of this treachery? Now are you going to understand why the Israeli Intelligence men, as well as the American CIA, had Nord Davis under observation for my last six months in Costa Rica? I wanted to release this data before, but I had to be sure of this fact before I would come right out with it. It is now believed that so-called patriot, Robert White, himself a Jew, is somehow involved with this effort. Because of the efforts of THE NORTHPOINT TEAM, Robert White did not make it to Costa Rica for his May Seminars. Enough said. More later.

We do know something else about this so-called settlement area. If you will look at a map of Costa Rica you will see that the border consists of a river and a lake. Small ships, with a draft of 16 ft or less, can navigate from the Atlantic to within 36 kilometers of the Pacific Ocean. This route is the most practical canal that could be built to tie both of the oceans. We have now been getting rumors that Nicaragua is to sell a similar strip of land, 25 Km, to the Israeli State and that with the Costa Rican strip will give the Zionists the control of the finest canal that could be built. And, it will be paid for by the American taxpayer. Do you still trust President Reagan?

From all the intelligence that we can gather, the Nicaraguan people do not want the United States troops on their soil. They do not like the Sandanistas, or any form of Communist government, and want to be left to clean up their own mess themselves. However, the Soviets and the Cubans have thousands of military troops and advisors there, all of whom are well equipped and armed. The Nicaraguan CONTRA, on the other hand, must fight with limited arms and very little equipment. However, uneducated as many of them are, they do understand that no nation once Communist has been permitted to become free again by United Nations/United States forces. Will you name even one exception? So the CONTRAS do not trust the American advisors, and with very good reason. We have Kissinger. We support Chuglin and Commandante Cero.

There is a very simple answer, if, in fact, the Congress really wants freedom for the Nicaraguans. By United Nations Charter, part of Article One, Sec. 8, has been made of none effect; that is, Congress shall have the Power...to declare War. Congress may not now do that until the United Nations is dishanded or America withdraws from it. However, Congress may grant to private American citizens and foreigners a Letter of Marque as was given to La Fayette. The Privateer Capt. John Paul Jones sailed under a Letter of Marque and did the job for the United States without using American military forces. All Congress has to do is issue a Letter of Marque and Reprisal to the NORTHPOINT TEAM and certain other Nicaraguan Contras which we can name at the proper time, and drop in certain used military supplies and weapons to designated areas, and we will help the Nicaraguans free themselves. With a Letter of Marque in our hands, the American patriots will completely fund this operation and it will not cost the U.S. Taxpayer one dime. It will not compromise American servicemen. It will not interfere with United Nations agreements because all efforts will be done by private citizens. The job is now being done anyway without the Letter of Marque, but with extremely limited funds. Our major problem is to put our men in good jungle boots and provide them with a reliable rifle. We have 3800 Nicaraguans ready to go if we can but provide them with the clothing, food and weapons to do the job that they themselves are begging us to let them do.

Here is how it is going to be done, with or without a Letter of Marque. It is true that the Sandanistas have both numerical and equipment superiority. However, this military equipment

needs one thing: Fuel. Because of our limited forces and equipment, it is far easier to attack the source and storage of this fuel than to attack the equipment operating in the field. If we can cut off the fuel, and its supply through certain harbors and pipelines, the Sandanistas will be out of business. Our first target, therefore, should be the Rockefeller refinery at Managua. The second will be the fuel storage tanks in Port Isabell, Puerto Cabezas, Bluefields, Rivas, and San Carlos. This will be done by 5 man teams trained in sabotage.

The next thing that needs to be done by our private teams is the selective assassination of all Sandanista Leaders. Nicaragua is a very small country. We know who they are, from the local leader right up to the Ortega Brothers. Traitors such as Commandante Cero and Chuglin are, even now, being hunted by the CONTRAS. Such assassinations will strike fear in the mind of these Communists and disrupt their ability to govern. Following that, there should be a general assassination of all Soviet and Cuban advisors wherever found.

Following this, or in concert with it, there should be selected tactical strikes against key targets, coordinated to cause the most chaos to the Communist enemy. These targets will be military barracks, storage depots, ammunition dumps, transportation, power plants, water and sewage treatment facilities, etc. The Sandanista microwave tower and associated equipment located between Managua and Leon is to be destroyed. We have operational plans to close Port Isabell and Port Cabezas prepared. Bluefields will also be closed in the event that we can not secure that area in the hands of the CONTRAS within a few weeks of operations.

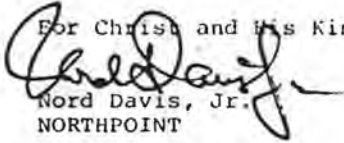

What can the American patriots do? I would like each of you to outfit one Nicaraguan patriot in just his clothing. These people are smaller than the average American. I need one pair of jungle boots, one pair of jungle pants, and one four pocket jungle shirt/jacket. Those of you whose last name is A-G, send shirt size small, pant waist 30", and boot size 8. H-M, send shirt size M, pant waist 32", and boot size 8 1/2. N-Z send Shirt size M, Pant size 34, and boot size 9. Each man will need a web belt, an "LC" harness, a cheap compass, a cheap pocket knife, and a good quality fighting knife. You can find most of these things in an Army Surplus store. Good used clothing is just fine. Ship it to THE NORTHPOINT TEAMS, Rt 1, Box 246, Andrews, North Carolina. Do not mail to my Topton Post Office box please. I must delegate responsibility for this to others. If you have used field glasses, older but working 35mm cameras, etc, please send these for use down there. We need specifically 35mm cameras with 150mm or longer lenses for special assignments. Financial support for this specific effort should be made out in the name of THE NORTHPOINT TEAMS, and not in my name. Do not send any firearms please. Yes, we need 12 Ga. Pump Shotguns that are not junk. A man's life will depend upon it, and if you can spare one of these, contact me and we will make arrangements to pick it up. The zip code for Andrews is 28901.

We have been extremely busy since returning from Central America as you can see. And, as you can imagine, we have been operating on a very tight budget. Funds here are badly needed to keep up the effort and it is hoped that a few more of you will think of us on a more regular basis. The NORTHPOINT TEAMS have sent, in one form or another, more than \$5,000 worth of support to the private antiCommunist efforts in Central America since I returned from there in February. All we need to accomplish the above objectives is enough to supply 20 five man teams who now await only the supplies to do the job. We do not need the U.S. Navy. We do not need Soviet Agent Henry Kissinger. We do not need or want a single active member of the US armed forces. We will fund all our own equipment and supply all our own men. We just want to be able to do so without interference from the Central Intelligence Agency, the FBI, and all of the other groups whose loyalty is to a Totalitarian Socialist form of world government.

I am fully aware of the fact that the proposal made in this letter as well as the facts that it contain may well be the most dangerous letter that I have ever written. There are very powerful forces abroad in the land who now may want to silence this one strong voice for freedom in Central America. There is an arrest warrant on false charges involving "National Security" in the event that I return to Costa Rica. There is enough intelligence data in this letter to establish in the minds of professionals that I know what I am talking about, and there is now a certain personal security risk here in the United States. A whole lot of international plans now being laid out by Kissinger and his communist friends will be frustrated if we are able to accomplish the objectives set forth in this letter. They know it just as well as we do, and for this reason I expect trouble.

Please continue to pray for us that the Lord will continue to blind the eyes of the enemy so that they can not see us or understand what we are doing.

For Christ and His Kingdom,

Washington, D.C. 20510

Dear Senator Helms:

I guess I am classified as one of your disappointed supporters. As the American Party Candidate for the U.S. Senate, against Ted Kennedy in 1970, I can understand the severe pressures of politics more than most, and know the serious problems that we are going to have getting you reelected next year. However, your reelection is not the concern of this letter: The lives of myself, certain of my contacts here and in Central America, are the concern.

I spent 18 months in Central America. There is an arrest warrant out on me by National Security of Costa Rica because of the data that I have in my possession and in my head. I was frequently being followed by agents of three countries at a time, U.S. Intel, Israeli Intel, and the ever clumsy C.R. National Security boys. My security was, for a period of time, arranged privately by "Chema"---the son of a former President of El Salvador. This and other contacts that I developed there provided me with the data that I need to do my story on Central America, from the US betrayal of Nicaragua, to the U.S. Ambassador of Costa Rica's family connections to the Soviet Embassy and Cultural Center. I had no intention of giving this sensitive data to anyone, Even your office, Senator Helms, until I had a chance to compile it into a booklet and have it distributed ahead of any chance of betrayal. At least two Nicaraguan patriots gave their life for this data, and we know that several are in prison because of it. One of those reporting to us was a niece of Somosa and she was tortured and murdered by one Commandante Ana Maria Morales, the #2 El Salvadoran Communist leader. You will read about her in our NORTHPOINT, Team Debriefing.

Against my better judgment, and at the urging of your financial supporter, the John Talcotts of Plymouth, Massachusetts, and your aid, Mr. Dodd, our office agreed to provide a set of confidential documents and 14 cassette tapes of information through a certain lawyer by the name of "Mr. Carbough". I had nothing directly to do with that man, but brought certain data to my office from a secure location, and brought in a man known to "Mr. Carbough" only as "Colgate", and he and Mr. Carbough made a number of contacts on my phone. Further data was accumulated via telephone calls into Costa Rica and sent here from Arkansas and Texas. Some came from Miami contacts, etc. When all this sensitive data was assembled, at a cost to our office of more than a thousand dollars, a meeting was scheduled with Mr. Carbough in Charlotte at a certain time and place. My two men were there. Your Mr. Carbough never made the meeting and all further attempts for him to talk to us by phone, or to contact us by mail, have been fruitless.

In what I feel was a tactical blunder, my associates decided to take this data to your Hickory, N.C. office and give it to them with the direction that this data be sent to your Washington Office. In a conversation with Mrs. Debbie DeMoss yesterday, I learned that this data has not arrived at your Latin American desk, and that she has no knowledge of it. Where is it?

Our intelligence research suggests that this data found its way to the offices of "Mr. Carbough" and that he is almost constantly in Central America.

What bothers us the most, and just why we did not wish to provide you or anyone with this data is because of the names of the CONTRA Nicaraguan leaders contained in this data. Many of these men--and women--are not known as such by either the Nicaraguan or Costa Rica people (officials) and that such data would be a risk to their lives and their effectiveness.

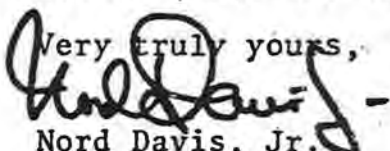

All attempts for recovery or location of this data; whether or not this data ever arrived at your office; and other related questions, meet with only the usual doubletalk and "Well we have been very busy this week with other matters" routine.

Our team, in Miami and elsewhere, is monitoring short-wave transmissions from southern Nicaragua and it is interesting to the point of paranoia that all the Sandanista attacks upon our people just happen to match the people and places that was contained in the data that Mr. Carbough received from your Hickory Office. I make no accusations against Mr. Carbough. I am only pointing out the situation as I see it---especially because of the silence, the failure to return calls, and the apparent indifference that we are receiving here.

Our office here, and our NORTHPOINT TEAMS, are not going again to the expense and time to regather this data, the source information, from its secure locations to provide it to your office again. We urge you to take whatever steps are necessary to secure this information, to reconcile the data against what is also known by your office, and to let us know if there are any areas of data that you need further clarifications. Our NORTHPOINT Team would like to meet with you, personally and privately, whenever you can arrange it ---in North Carolina. Since the lives of our Nicaraguan patriots may be at stake, and the security of our people here in the U.S. is involved, I do not think that our casual treatment by your people is in character with your fine reputation as an American patriot.

I have enclosed two data sheets that have been mailed to my nationwide mailing list. To provide the data contained therein it must be noticed that one has to have been there.

Very truly yours,

  
Nord Davis, Jr.

Dear Ford: Family -

Glad to (a) know you & family are all well, and (b) receive OTC 36:37  
Before anything - congratulations on [redacted] anticipated arrival  
next month. He will certainly bring you both much joy. b7C

Have not given up trying to visit you - taking a minimum of your precious  
time - this fall, before the snows begin. Great Call not [redacted]

James McCord (Watergate) was here last week and at a press conference - not  
reported in "press" told a group that Ford will be thrown out of office  
very soon after Rockefeller is "confirmed" and then will have a dictatorship.  
- Course that's no "news" to us - but imagine a few of the press and surprised.  
Do believe installation of Rockefeller will be the big mistake that destroys "them".  
Looks like Nixon will not live long. Maybe others will see how "the Conspiracy"  
removes their stooges.

Several times I've suggested that a skilled writer, like yourself, should write an  
open letter that could be sent to "the elite" telling them what their reward will be.  
Please consider this most carefully.

That's all - except to wish His blessings on you, yours and your works.

Kindest regards,

"The only way you can protect your savings, and the only way I can protect mine, is to take those savings from the bank and put them into lawful money---silver. Late August 1974

Dear friends,

Five years have passed since I began to warn the American people about what was happening to their money. Over 100,000 of the above issues have been distributed all over America. At that time, U.S. silver coin could be had for about 5% over face value. A year later it was 35%. At this writing it is 320%. It will cost you \$3200 to buy a \$1,000 bag of silver coin. Has the silver increased in value? No, the U.S. Dollar has gone down in value. Those who did not take the necessary immediate steps have been seriously hurt. Too bad. I warned you.

I WARNED YOU AGAIN IN APRIL OF 1973 AND ALL THAT I PREDICTED IS NOW COMING TO PASS. THIS MAY BE YOUR LAST WARNING: GET OUT OF THE STOCK MARKET AT ONCE!

But what I fail to comprehend is that even after five years, there are still hundreds of my readers who are clinging to the stock market. You hope that it will go up again just once more. And if it should go up, you will feel relieved and hope that it will go up just a little more. Those of you who entertain that kind of thinking are going to be ruined. There is not one of you, regardless of your stock selection, that has made any money in the market in the past three years. What was true and successful five and ten years ago is not true today. Those of you who refuse to shift your thinking to the reality of what is happening are going to lose all that you have.

Yes, yes, I have heard the argument that you have confidence in American industry. Left alone, American industry could survive

and make a profit. But the Federal Government will not leave them alone and the private FEDERAL RESERVE will not stop printing paper dollars. Therefore, it is just impossible for any stock to keep up with the inflation. If your dividend does not keep up, you are losing money. When a stock loses money, its value goes down. When enough stocks are going down, you know that it is not because of faulty management but because of prevailing financial conditions. The wise shift their course. The foolish put their head in the sand and say that it isn't so.

I receive a dozen financial reports on a more or less regular basis. Almost all of them talk about a possible stock market crash some time in the future. They hint at a coming collapse of the dollar. Everything is always in the future tense. These are still in the stage of wishful thinking!

It is grossly inaccurate to talk of a coming or possible upheaval of our economic structure. It is now happening. It is in the present or past tense. We have already had crashes as bad or worse than happened in 1929. We just have postponed the effects for a few more months. What do you call it when there has been a 300 billion depreciation of the value of the stock market in less than a year? Financial analysts glibly say that these are "paper losses." Brother, it is more than mere paper when you go to sell. You have lost real wealth.

Things are happening so fast now that anything I write will be out of date by the time it gets into your hands. But so far, all we have seen is a sort of "slow motion" stock market crash. As I write, the Dow Jones is below 650. Bad as that is, you must remember that "Dow Jones" is but a facade erected by the international bankers which they can manipulate at will. Most stocks have lost 40-80% of real value and even more when you add in the inflation factor. And I still meet people who are looking for the silver lining in the huge black storm cloud hanging over our heads.

just a country boy passing through life...

It is a fine trait of character to have a continual positive attitude, but this is one time you would do well to run for cover.

**THERE IS BUT ONE WAY TO RUN FOR COVER AND PROTECT YOUR SAVINGS: PHYSICAL POSSESSION OF PRECIOUS METAL COINS, PREFERABLY GOLD.**

As I write, Pan American Airways is broke. It is begging from the taxpayers for 10 million per month or it will fold up. C.V. Myers says that Grumman Corp---one of our key defense contractors---is broke and your congress rightfully turned them down on a Navy loan of \$100,000,000.

In most parts of America it is close to impossible to obtain a home mortgage. The banks just do not have the money. Those that do are holding their funds to maintain their liquidity. This has killed the real estate market and this is a prime indicator of coming events. Office space and these new apartment complexes are begging for occupants. They are going broke. Next we will see the builder bankruptcies by the thousands. Building being off has hit the lumber industry, and soon to put carpenters, electricians, and architects out of work. All this is hitting the suppliers of glass, rugs, cement, etc., and their back up people such as truck drivers and accountants.

The price of gasoline and the alleged energy crisis\* has hit the automotive industry below the belt. New cars are a mill-stone around the necks of most dealers. If you cannot buy a new car at his cost, you are not driving a hard enough bargain. General Motors announced a \$500 increase in the price of the 1975 models and then, allegedly under pressure from the government, reduced the increase to only \$450. What a laugh! If GM cannot sell at the current price, and bankers have a shortage of money for car loans, how can they ever sell cars at the higher price? They can't. So, the price hike is either a threat to sucker the public into buying out their 1974 inventory, or GM is about to go broke. Likewise, Ford, and for the same reason. Thousands of industries and suppliers depend upon the automobile industry and you can expect them to go under too.

What I have told you is not possible, not likely, not even highly probable. IT IS ABSOLUTELY INEVITABLE. There is nothing that anyone, or any Presidential Economic Committee can do about it. Economic Laws are just as binding as the Laws of Physics. America has disobeyed them into bankruptcy. You can ignore all this and pretend that it isn't true for a little while longer. You can follow the Dollar as it bites the dust, if you like. My experience has been that most of you will do just that.

Many of you have your money in Banks and Savings institutions. You insist that your funds are protected up to \$20,000 per account by no less than the Federal Deposit Insurance Corporation. You didn't read the fine print. The FDIC will not help you if the Dollar goes.

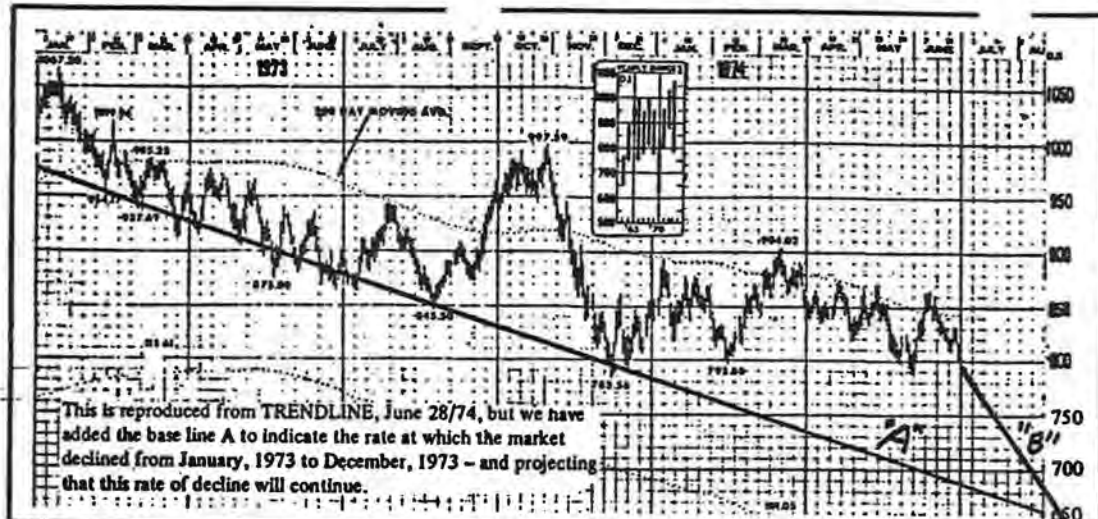

Its assets are only four tenths of 1% of the money on deposit! True, if one bank folds up, the FDIC can help, but if hundreds of banks go, it is worthless and you will be lucky to get 5¢ on the Dollar. The American people have been set up like pigeons in a shooting gallery since the Federal Reserve Act of 1913. Look at those bills you carry in your pocket. See the very top line? Note that it does not say "FEDERAL RESERVE CERTIFICATE." It does not certify that there is on deposit anywhere anything. There is no backing whatever to any paper currency now in circulation. Your bills will state plainly, "FEDERAL RESERVE NOTE." What is a "note"? It is the same thing that you sign when you go to a finance company for a loan. It is an evidence of debt not an instrument of available assets. What you are using for "money" is an I.O.U. owed by the American people to the private banking cartel called "The Federal Reserve Bank Corporation." Contrary to popular belief, carefully insinuated into American thinking, the Federal Reserve is neither "Federal" nor does it have any "Reserves."

The Federal Reserve is a private corporation run for profit and plunder of the American people by the unconstitutional permission of the U.S. Congress. It has never been audited by Congress, and any Congressman, such as John Rarick, who tries to expose the FED is run out of office. Mr. Rarick is up for election this Fall and every force that can be applied is now being used to defeat him. Let us pray that this one prediction is wrong and that patriots from all over America will send the money needed so that he can wage a successful campaign.

So, what is going to happen is that one of these days, those "notes" will no longer be accepted as "legal tender". Since they are not redeemable in either gold or silver, they are not legally "lawful money." No where on any bill which you carry in your pocket is there any claim that they are lawful money---just the notation that they may be legally tendered for the payment of debts. Likewise, you may legally tender your personal check for the payment of debts. If the person to whom you tender your check believes that you have money to cover the check, he will always accept it. If he does not believe you do, or has no opinion, he will never accept the check. It really is very simple. Even worse, many times you do have the money in the bank, but if the person does not believe it, it is just the same as if you didn't. You see, the effect is just the same.

The time has now come when the average American begins to believe that the Dollar is in the same condition as a worthless check. Federal Reserve "notes" have, technically, always been worthless. But the American people didn't believe it and solely for this reason have they been acceptable as currency. Those days are now drawing to a close. Some people are going to get stuck with a lot of them.

\*Write for my 30 page booklet THE ENERGY HOAX, The Rockefeller Connection. 50¢ donation.

I know that many of my readers do not own any stock and hence they feel somewhat unconcerned. But Wall Street reflects much more than just the fluctuating prices of common stocks. It is a real indicator of the threat to our standard of living. Think of the millions who never owned a share in their life---but who stood in the soup line of the 1930's.

The soup lines are coming again, whether or not you own stocks or have savings accounts. The above chart came from the MYERS FINANCE & ENERGY\* report of August 29, 1974. He added Line "A" to the chart put out by TRENDLINE. Line "B" is the current status and what I expect will be the eventual low this Fall: DJ of 500. MYERS and I agree on this. Most other financial newsletters---those which have been more or less consistently correct---say the same thing, though no one likes to predict exact figures. Many of these fellows write for the very wealthy and their suggestions are not valid for the lower middle income folks.

Many of my readers, as far as I can tell from the help they give me, are in this lower middle. More than half, as far as I can tell, have almost no savings and no stocks. What do these people do? A few thousand dollars to them---and perhaps even a few hundred---mean more to them and their security than many thousands to a prosperous professional person. As friend Harry Schultz\*\* says, the U.S. Dollar will exit slowly, not with a bang, but with a whimper. Middle America will be too busy to notice until too late.

So, the purpose of this letter is to wake some of you up---and get others to move off dead center. In 1969, I urged you to buy silver coin with your savings stating that their value would go up, relative to the

\*MYERS' FINANCE & ENERGY, Calgary, Ontario, Canada, \$135.00 per year.

declining value of the Dollar. Those of you who took that advice have made money. In fact most of you have more than tripled your money relative to the Dollar.\*\*\* Times change. Conditions change as new inputs are added to our considerations.

The record of silver as a commodity is what now affects the value of silver coins. Thus the sale value of silver coins can vary considerably and when you want to sell them the price could be on the down side. Since gold is both a monetary metal and a commodity these coins are, in my humble opinion, a far better value in the times just ahead. Trust in gold, while theologically incorrect, does pre-date Christianity. While the Bible does say not to lay up treasures on earth, the intent there was more one of attitude toward the gold than the possession of it. Promises of wealth and riches are laced through the Bible in the covenants with Abraham and his children. And in a practical manner, I have yet to find a devout Christian who will refuse the gift of a gold coin.

Anyway, I expect silver to keep on bouncing for quite a while. If you bought it, in coin form only, at a reasonable price, you might be better to hang on to it. But I am not now advising you to buy any at this time. Personally, I sold my silver coin when it was high and bought gold coins with the proceeds. MYERS might be right and silver will go up drastically in the future---if you can hold your silver that long. But even he is

\*\*\*I keep saying "relative to the Dollar" because people tend to think of the Dollar as some kind of fixed unit of value. Every other unit we use is a fixed amount and never varies. A "quart" is the same as it was a hundred years ago. A "mile" is still 5280 feet, and a foot is defined very exactly. But a "Dollar"? What is it? Who knows? It used to be defined as one twentieth of an ounce of gold and later as one thirty-fifth of an ounce. Now, the term "Dollar" has no definition and is whatever the politicians want to make it.

suggesting that your choice, at this time, should be gold coins rather than silver coins. In no case do I suggest you own silver in any other form than small coins that are easily negotiable.

What I am talking about here is financial survival---especially directed to those who cannot afford to speculate and lose on the commodity market. Wealthy readers are free to disagree and disregard what I am saying. But the rest of you should be out of stocks, bonds of all kind especially U.S. Savings, and savings accounts more than enough to meet reasonable emergencies.

Whatever happens to the U.S. Dollar, and any future dollar that is established, both will always have a value that is expressed in reference to gold. When all else fails, gold has always become the standard of all money. In addition, the natural attraction toward gold, while perhaps in some minds is illogical, does always place gold higher than it might otherwise be. It is a rough and tumble world. To survive, you must be in the right place at the right time. The right place now is in gold coin held in your possession. At this late date, do not expect to make money. It may be too late for that. Be content just to hold your own when everything else is eroding away. If it turns out that the price of gold rises faster than the Dollar devaluates, be thankful for the profit you have made.

The only way you could lose money is if the Dollar were to gain in value ---actually be able to buy substantially more than it does now---while the price of gold drops. The only way that could happen would be for a sudden zero inflation and a world surplus of gold on the market. With the forces now in effect, that is almost impossible.

Whenever I mention the purchase of gold coins, someone always asks if it is really legal to own gold coin. Yes, it is and always has been. However, until recently, it has been illegal to own any but Mexican dated after 1932. Now, as of recently, later dates are permitted.

Remember, you are buying gold coins for their gold content and not because of their value as a "collector's item." Therefore, I suggest that you buy the cheapest coins of any given variety. Naturally, the most important ingredient in any gold transaction is the person or dealer involved. He can properly recommend to you the best selection of coins depending upon the amount of money involved and the prices at the time.

Post Script: I am not an investment counselor. I am not a dealer in gold coin and am not an agent for anyone. I would rather you did not write for specific financial advice as I do not have time to handle such requests. You have all you need to know in this issue: Sell anything that is paper and buy gold coin---and items of intrinsic value of a basic survival nature.

Probably the most widely known gold coin is the English Pound Gold Sovereign containing .2354 Troy oz. It is now worth around \$60.00 and is about the size of a nickel. However, from a purely investment point of view, the Mexican 10 Peso contains more gold at .241 oz. and is about \$10.00 cheaper. Compare that to a "collector's item" the U.S. \$5.00 gold piece [Liberty Head] at around \$155.00, containing .242 oz.

I am sure that there are many reputable coin dealers who handle gold coins in addition to silver coin and other collectables. However, the only man I know who handles exclusively gold coin is the gentleman whose picture you see here. He is:

Mr. J.H. (Steve) Stillman  
P.O. Box 974-H  
San Diego, California 92109  
[714] 488-2984

I have known him personally for a number of years. He is like a Dad to me, patiently teaching me the financial facts of life. I know him to be a fine Christian patriot. Privately, I have recommended him to literally hundreds of patriots who have been in need of gold coin. Many have written me stating that they have found him to be honest and the coins were exactly as he represented them. He is an expert in his field having been a dealer years before it became a matter of financial survival. He has given me permission to give out his name for those who do not know of a dealer whom they can trust or would prefer that gold transactions not be made locally for security purposes. He will mail your gold in small, registered and insured envelopes. You might find it helpful to all concerned if you use my name when you call or write him...

Finally, if you remember nothing else, our money problems are the result of financially foolish or deliberately destructive policies of the socialists who have run America for several decades. They will not be reversed, in my opinion, short of a major depression. Prepare for it at once.

... And pray for Christian America

"Dear Mr. Davis,  
What has happened to you? We are worried  
because we have not heard from you for such  
a long time...."

-From about 1000 readers

Late September 1974

Dear friends,

No one knows better than I do just how long it has been. The past six months have been the most difficult of my life---yet the rewards have been the greatest. I am ever so grateful to the faithful members of the "Great Fish" who have helped me over this period.

About half of your letters expressed concern that perhaps the IRS might have taken some steps against me for exposing them in the FEDERALIST CONSPIRACY. No, I have not yet had the pleasure of hearing from them. But that book came out in February, and from March until late July, you were sending me more than 50 letters per day. The first printing of 10,000 copies was gone in just three weeks. The second printing of 8,000 is now just about gone and before I reprint, I want to add a few more pages. Naturally, all of this costs money and the price of paper goes up almost weekly. Most of you who asked simple questions, have already received a reply. I have a 4" pile of yet to be dictated letters which I will answer as time permits.

The other half of you are convinced that I must be spending my time in the rocking chair just gazing off toward the mountains. I wish it were so. The beautiful summer has dashed by and I have not been able to give much time to the rocking chair. You see, in Off-the-cuff...35 I mentioned the very distinct advantages of living in the Smoky Mountains from a survival point of view. There has hardly been a week since that time that we have not had visitors who were also looking for a place to gaze off toward the mountains. Very frequently, there have been as many as two and three families---or the head of a household---here at the same time. Naturally, these people want to know all the pros and cons and all of them want to look at a piece of land, etc.

And, though I hate to say it quite this way, we wanted a chance to try to screen them too. Patriots who have no interest in the Bible, those who come here just to save their skins, are not welcome as far as we are concerned. There is no way that we could stop them from coming if they had a mind to, but we are not going to take any time to try to help them. It really is for their good as well as ours. They would not be happy here.

*I'm just a country boy passing through life...*

NORD DAVIS, JR.

We have no taverns. We have no restaurants that serve booze. We have no state lotteries or bingo games. This is the Bible Belt and those whose minds and hearts are not at least inclined toward spiritual matters will find this a lonely place to live.

Further, we have found that non-Christian patriots can not take it when the going gets rough. And we do not need them.

So, over the past six months, the Christian patriots have been coming and finding what they like. We have 15 families who have now located in and around these mountains. We expect at least 15 more within the next few months as they sell their homes or businesses and find their way here.

The question has been: What do all of them do for a living? One or two have found employment locally. It is available. But we thought how wonderful it would be to start a Christian patriotic company and use these people as they come in. So, we did. We organized under a Trust and tied the Trust to our church: COVENANT REALTY TRUST. Mr. Alan Darcy and myself are the two Trustees. We are a very tight group. No one can work for our Company unless they attend our church and support our position in opposition to the Marxist income tax.\*

Under COVENANT REALTY TRUST we operate several small businesses. Understand, we are here for survival when the economy collapses and there is general anarchy in America. When that happens, we expect that hundreds of people will be forced to leave the cities and we know that many will be

*\*We regret to have to state, for those who may know him, that Rev. Sam Piper, the man we tried so hard to help in OTC #35, is no longer with us. Among other things, he developed a spirit of fear of the IRS and began to preach that Christians should "render unto the Federal Reserve that which is the Federal Reserve's." Instantly, he was no longer our preacher! And he does not work for our company either. He is apparently unemployed and spends most of his time trying to stir up trouble among our people or with the authorities. To that end, he has succeeded in wasting hundreds of hours of my time. In all else, he has failed. Praise the Lord. I have taken the pastorate of this little group until we can get a full-time man.*

coming here at that time. We feel an urge to help prepare for that day. Our immediate problem is one of housing. But when that day comes, those things that houses are made of will be generally unavailable...plywood, sheet rock, panelling, insulation, etc.

So, we have started a business manufacturing log homes. We believe that we have a unique process for producing the logs---cutting them in such a way that they will be an air-tight wall. Our logs are cut to a precision 6" thick and at the same time a dado

Alan Darcy

is cut, top and bottom, that will take a spline. This will make it impossible for any wind to blow between the logs. The walls will be 7" to 8" thick and we are using Southern Yellow Pine for our logs. We have just got our plant into production and are now erecting our first building: A combined office and meeting house for worship services.

By the time you get this OTC, this building will be completed, Lord willing.

Naturally, we have a few bugs to work out of our production line, but once these are out, our plant will turn out three average houses per week---from materials readily available in these mountains.

Because we need our logs very close to the right diameter and need to rough cut them to shape before they get to our plant, we found it necessary to buy a complete saw mill. We have one, another operation of COVENANT REALTY TRUST, and are producing lumber for our various projects. The Lord has been with us every step of the way. Every time we needed a man of a certain skill, he was the next man to arrive in the mountains. So, in addition to the manufacturing plant, and the saw mill, we needed a construction crew. We now have it and can handle almost any job.

The beautiful part of this whole concept is the price. Don't hold me to it exactly, but we anticipate that we can provide a patriot's family with a quality home on his land for \$13.00 per square foot. Or an average 3 bedroom home will cost around \$13,000 plus your water system. Unbelievable? That's a log home with high quality windows, quality plumbing fixtures and a modern kitchen. How can we do it? We manufacture just about everything from the logging truck to the finished home! There are no middle men. None.

And, we need places to put our log homes. We have a small land operation, picking up good land and breaking it up ourselves to keep the price down. COVENANT REALTY TRUST owns 7 acres of flat tillable land that borders a large creek at the base of a high mountain cove which can be used by

any of our church people who need farming or grazing land. We have located an old water-powered grist mill that we hope to buy and put into operation again. This is perfect corn country and a grist mill makes corn meal. COVENANT REALTY TRUST needs about 20 more good Christian patriots who can grasp the vision that we have and work with us. The past six months have not been without some interesting events. On June 26th, while driving 60 MPH down I-85 near Atlanta, a Chevy Blazer lost a front wheel and crossed a 10 foot grass strip and plowed almost head on into me. There was no chance to avoid him. My Dodge stationwagon spun around and wound up at right angles to two lanes of traffic some of whom took to the grass and the break-down lane to avoid hitting me broadside. Things happened very fast---this is the first time I have been in a wreck at this speed. Every door in the car was battered shut except the driver's door. I stepped out without a scratch---Praise the Lord. The car was a total wreck. The driver who hit me had no insurance. I had a \$250 deductible which just covered the remainder of the loan. The wreck cost me about \$900 and I have not been able to replace the car.

During this six months, Mrs. Davis announced, with a gleam in her eye, that she was pregnant....at 44. That's not too uncommon in this mountain air, I'm beginning to find out. Naturally, we are excited and she expects to deliver in mid-October. At that time we will have three children in college. Last Fall, in our garage sale prior to moving, we sold all of our baby things. This one, she insists, is a boy and she has picked out a name: Benjamin Isaac. Not bad, since all of Christ's disciples were from Benjamin, except, of course, Judas the only Jew. And, as we all know, "to Isaac were all the promises given."

One of the greatest handicaps to my work has been the cramped quarters. Hopefully, by the time you get this letter, we will have moved into my new office. We ran out of funds and had to wait until another piece of land had sold up North. Now we are fast finishing this project. My office and mailing room take up most of the 28 X 40 addition to our home. Now, we will be able to find our reference materials when we want them and these letters will be coming out just as fast as I can pay for them. I have just finished my booklet on THE ENERGY CRISIS---THE ROCKEFELLER CONNECTION. It is PARDON ME, but... #68. I have it now at the printers and it will be ready October 1st. I have bought \$130 dollars worth of large envelopes, but the printing and postage will be very close to \$2,000. Because it would cost 40¢ to mail them to you of the GREAT FISH by First Class mail and only about 5¢ by Third, I hope you will understand. I hope some of you will feel inclined to help me with this big printing and postage cost. If I don't get some help I am going to be in rough shape for the next issues that are in the planning stage. Everyone wants another PMB on MONEY like the out-dated PMB #53 and #54. While OTC #36 provides the proper action to

take, it is shallow on the root causes. The patriotic movement seems deliberately long on the educational effort and short on any proper action to take. If this issue on money is to be of any value, we must get it out at once. All of this takes, of course, money which we do not have.

We get many letters from those who, in spite of the evidence in THE FEDERALIST CONSPIRACY, feel they must pay whatever is demanded by Federalist IRS agents. They come to you saying that you owe a certain amount of money. How do you know they are right? In fact, how do they know that they are right? The IRS manuals take up about five feet of shelf space and are constantly being amended. No agent, or even a battery of agents working together, can possibly consider every part of the code. If they overlook even one area concerning your return, the figure that they say you owe is inaccurate. As a taxpayer, don't you think you are entitled to know for sure that you have not over-paid? Over-paying even a dollar or two is just as bad, in principle, as being wrong by several thousand. Isn't that true? So, if they say you owe a certain amount, you have a right to have them put their name on the line under penalty of perjury that the amount is exactly correct. Certainly, they cannot expect you to pay any amount if they are not willing to guarantee in writing that the figure is correct. After you read the STANDARD RELEASE FORM I have provided, you will see why no IRS agent in his right mind will sign it. With just a little research you, or your accountant, will be able to prove that the figure was wrong. But the point is, with this form, you are not refusing to pay any tax. You are just taking the proper business-like procedures to be certain that his figures are right. I think you will find that you have a Mexican stand-off, and if the agent is wise, he will drop the matter.

People always ask me how I can be so sure that the stock market will not recover. I do not hold that there will not be days when it will gain a few DJ points. But the general trend has to be down. It is impossible for the general trend to begin to rise.

You see, people buy stocks because they want a better return on their money than they can get in a savings account. For this, they are willing to take a certain amount of risk. When you buy stocks, contrary to common thinking, you are not buying a "part of the company," or as PRUDENTIAL puts it, "...a piece of the rock." All you are buying is a part of the anticipated profit that the company might make. If there is no profit, you do not get a dividend. If the dividend return is too low---based upon the price of the share--- in the eyes of most investors, the price of the share will drop. If there is no anticipated profit, or the company is about to go broke, the price of the share will go way down.

We are in a time of run-away inflation. It cannot be stopped unless the Federal Reserve stops printing paper money and sending it out over the land. They will not stop, because it is accomplishing exactly what they want---the destruction of the Dollar so that America can be merged into a "one-world" money system.

Since inflation is not going to be stopped short of a collapse, no stock can possibly yield even the amount that is lost through inflation. To do so today, your dividends must return 20% per year. On a \$100 share, you must get a \$20.00 dividend per year or you are losing money. Do you see that? In addition, you are paying an income tax on your much lesser dividend---perhaps \$8--when actually you lost money. How foolish can you get? Now, you see why I can say with complete confidence that the stock market cannot go up again. In fact as more people learn the simple economic truths contained in this paragraph, you will see the market drop 50 points per day. Note that the news broadcasters do not give you the DJ figure anymore. They just say that the market lost so many points in brisk trading. They put the DJ figure, when it is available at all, in among all kinds of figures and flash it on the screen for just 10 seconds.

## ONE HUNDRED DOLLAR REWARD

Today, most fundamental Christians have been taught that before things get too bad, Christ will take the Church out or off the earth in what they call the "Rapture." I mentioned in OTC #35 that I do not get this understanding from Scripture. And I have made a thorough study of every verse that they use. But this caused a stir among some of you---so now I am putting a challenge to you: If you can find this doctrine taught by any minister, evangelist, theological writer, etc. before the year of 1830, I will send you a check for \$100. To qualify, you must give me the name of the volume, page, and the author so I can see for myself.

Why, if it is so plain to preachers today, didn't the great reformers teach it? From the sermons of theirs that I have read, they were top Bible Scholars. I do not want to hear your understanding, or that of Darby or Schofield. All I want is the works of any preacher before 1830. I maintain that this doctrine is no older than that date. If you can prove me wrong---it is worth the \$100. Why? Because it is this doctrine, more than almost any other, that is laced through the Christian Church today. They may differ on the mode of Baptism, on gifts of the Spirit, on Free-will v.s. Election, and a hundred others. But on the Rapture, they seem to all agree. Yet it is this doctrine that has taken away the militancy of the Church. The Pilgrims did not teach it. If they did, they would have waited patiently in Europe for Heaven and the Rapture. Why worry about the Communists, or those who control them, or drugs, or immorality, or anything else, if you are not going to be here?

Go ahead, students, do a little homework and see if you can make yourself \$100. The earliest that I can find is the Jesuit Priest Emanuel Lacunza who wrote under the pen-name of "Rabbi Ben Ezra." "Ben Ezra's" works are rather commonly available in Christian book stores as though they were actually the work of a converted Rabbi. This was in 1830. The same year a woman preacher named Margaret MacDonald, from Scotland, came up with the doctrine and passed it on to a hippy named J.N. Darby. So, these don't count.

*"The Lord bless thee, and keep thee:  
The Lord make his face shine upon thee,  
and be gracious unto thee:  
The Lord lift up his countenance upon  
thee, and give thee peace."  
Numbers 6:24-26*

That is such a beautiful prayer. All of you have heard it a hundred times. But why don't the preachers read the last line of it?

*"And they shall put my name upon the  
children of Israel; and I will bless  
them." Numbers 6:27 and end of chapter.*

It is the Christians who have God's Name put on them and whom God has blessed down through the past 2000 years. He has blessed us, kept us, been gracious to us, and given us peace. Surely we then, not the anti-Christ Jew, are the people of the Book from cover to cover. When you understand this, and begin to apply prophecy to Christendom instead of Jewry, you Bible will begin to open up to you.
